WHAT'S NEW AT LYMAN

Dear Fellow Shooters,

I have a great sense of pride in having worked in the same industry for my entire career and it is especially gratifying to see that our shooting sports industry is as strong and united as it has ever been. Thanks to the dedicated work of shooters and hunters like yourselves and along with great organizations such as the NSSF and the NRA our industry continues to grow and thrive. It is encouraging to see so many new shooters and reloaders join our ranks each year.

As Lyman enters its 137th year in business we are thrilled to be a part of this industry, its growth and its ongoing success. Why has the industry continued to grow and flourish? One of the reasons is innovation and products that create new interest and keep customers coming back. In 2015 we are pleased to continue our tradition of innovation and constant improvement with a complete series of new product introductions across all of our popular brands.

Bore scopes have always been a critical but costly tool for inspecting rifle and handgun barrels. Our new Borecam Digital Bore Scope offers this precision tool at a price that every shooter can now afford.

The new Lyman Ammo Tracker takes Chronograph technology to a new level. No longer do shooters have to tediously hunt for information on their shot strings. The Ammo Tracker constantly updates this data on its digital display for each shot fired.

We continue to find new ways to make case preparation and reloading easier, faster and more precise with items like our new Ammo Checkers and Ultimate Case Prep Kit. For the discriminating shooter we offer our new Deluxe Aluminum Loading Blocks, made on our CNC machines here in Middletown, CT. In our effort to continually improve our products our Lyman engineers have completely redesigned our Media/Case Separator and Turbo Sifter for better performance and greater value.

Our goal to be a leader in the growing Ultrasonic market continues with the introduction of a new ultrasonic cleaner, the TS-1200, as well as a new convenient 5-gallon pail of Gun Lube for our large volume users.

Pachmayr has spent years perfecting grips that make shooting more comfortable, and our new line of Diamond Pro grips are the softest feeling, best fitting grips ever. In addition we continue to expand our American Legend Series grips with exotic new laminates. Our Master Gunsmith line has also added numerous new products such as our Essential Gun Mat, Ultimate Gunsmith Set, 10 Piece Gunsmith Screwdriver set and a handy Plug Screw Set.

In our growing ADTAC line we have added 4 new camo patterns for both our Ruger 10/22 tactical stocks and Takedown stocks.

At Lyman, we are always trying to bring the best products to our customers at the best prices. Like you, we are shooters too, and are always looking for innovative ideas to improve our sport. We are always interested in hearing from you, our customers, and we hope that you will continue to share your thoughts and keep in touch through our newsletter (sign up on our website!), and our Facebook page.

Best Wishes for a Great 2015!

Rick Ranzinger, President, CEO

Lyman® Brands That Perform

Pioneering the use of digital technology in reloading tools, reintroducing "antique" calibers & bullet moulds, Lyman continues to improve & innovate the tools used by serious shooters and reloaders.

Butch's®

Benchrest Clean for Every Firearm

Every shooter's firearm deserves the kind of cleaning originally developed to maintain the accuracy of hard working benchrest rifles.

Pachmayr®

America's Most Trusted Name in Recoil Reduction

Whether shotgun, rifle or handgun; hunting, target shooting or just plinking, shooters put Pachmayr between themselves and recoil.

TacStar®

Tactical Performance, Practical Design

When it comes to tactical accessories, rely on TacStar to combine both rugged, reliable performance with simplified, value-oriented design.

ADTAC®

Stocks and Accessories that feature revolutionary design and engineering

The most advanced and versatile stocks available for the extremely popular Ruger 10/22 rifle.

A-Zoom®

Cartridge Precise, Snap-Cap Safe

For safety training, function testing or safely dropping a firing pin without damage. Choose from the industry's widest range of precision dimensioned snap-caps.

Trius®

America's Choice for Clay Target Fun

Celebrating half a century of throwing challenging clay targets for America's shot-gunners.

TargDots®

Stick-On Target Dots & Targets to Improve Your Shooting

Get more out of your targets. TargDots® bright, stick-on aiming points; sighting in squares; replacement bullseye and fun shooting dots make aiming more precise.

LYMAN AMMO TRACKER™ CHRONOGRAPH

**NEW
2015
FOR**

Unit assembles in minutes with easy to use, heavy-duty clips that lock tightly into place.

Sturdy mounting base mounts the chronograph to most standard tripods or camera mounts.

Large diffuser screen spacing creates a wide, easy shooting window.

The display updates with each shot fired, and displays the data for Average, High Velocity, Low Velocity, Extreme Spread and Standard Deviation. In addition, Shot number and String number are also displayed.

Lyman Ammo Tracker™ Chronograph

Lyman's new Chronograph offers advanced features while still being amazingly easy to use. Unlike other chronographs where you need to hit several keys to review your data, the Lyman Chronograph continuously updates and displays your data as you shoot! With each shot fired, the display updates and displays the data for Average, High Velocity, Low Velocity, Extreme Spread and Standard Deviation. In addition, Shot number and String number are also displayed. The screens connect to the display using a single cable. No need to have two separate cables for the Start and Stop screens which can get tangled up and in your way. The screens have a 2' spacing and easily assemble using four matching sections of tubes that provide the connections between the two screens.

Specifications:

- Operates on a 9V battery
- Two foot screen spacing
- Accuracy + or - 0.5%
- Standard 1/4"x20 thread for tri-pod mounting

Chronograph (#7832270)

BORECAM™ DIGITAL BORESCOPE

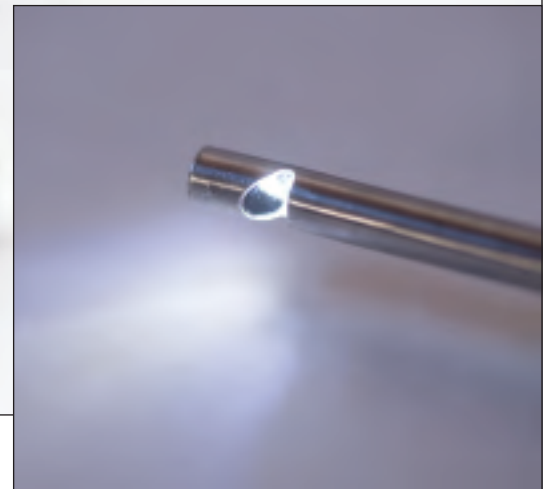

Borecam™ Digital Borescope with Monitor

Lyman's new Borescope provides active shooters with the means to carefully inspect the bores of their firearms for wear, throat erosion, tool marks, and other rifling or chamber damage, as well as for checking for fouling. The scope will fit 20 caliber and larger barrels and works with miniature camera technology. The display will show a clear image of the inside of the barrel and also allows you to take a photo of the bore. The image will be stored on a standard SD card and can later be viewed on a computer or lap top.

Borecam Digital Borescope with Monitor (#04055)

Scope fits 20 caliber and larger barrels and rod is 22" long to provide a view of the entire inside of the barrel.

Miniature digital camera technology and bright lighting combine to provide crisp clear images.

Images can be captured from the display and saved to a memory card.

Universal Cleaning Rod System

Lyman's new Universal Cleaning Rod System covers all handguns and rifles with two 12" and two 36" rods that thread into the ergonomic swivel handle. Like the handle, the cleaning rods are chemical resistant. In addition, the rods are machined from spring steel and have a tough, non-abrasive proprietary epoxy coating. They are threaded to mount standard 8-32 jags and brushes like those in Lyman's new 26 Piece Complete Jag and Brush Set. The rods and Universal Handle are also available separately and a special .17 caliber rod is also offered.

- Universal Cleaning Rod set includes Universal Handle plus 4 most popular rods:
12" (22-26 Cal), 12" (27-45 Cal), 36" (22-26 Cal), 36" (27-45 Cal)

Cleaning Rod Handle * (#04040)	\$23.98
Universal Cleaning Rod Set (Handle + Rods) (#04035)	\$89.98
Cleaning Rod 22-26 CAL 12" (#04010)	\$42.50
Cleaning Rod 27-45 CAL 12" (#04020)	\$42.50
Cleaning Rod 22-26 CAL 26" (#04012)	\$48.98

*Included in Set

Don't risk damage
to the chamber
and bore
of your rifle!

Universal Bore Guide Set

Lyman's new Universal Bore Guide Set directs and centers your cleaning rod and jag through the chamber. This protects both the chamber and the bore from abrasion by the cleaning rod during regular cleaning. "Universal" means that this set will fit most bolt actions and even includes a special adapter sleeve for the AR-15.

Precision machined from durable, anodized aluminum, the set comes with interchangeable tips that cover bore sizes from .17 up to .416 and the thread-on nozzles prevent the guide's sticking in the chamber. The guide's specially machined port makes applying solvent to the inserted cleaning patch easier and neater than trying to push a wet patch into the open end of the guide. The Universal Bore Guide Set works with most cleaning rods like Lyman's new Universal Cleaning Rod System and Jag and Brush Set.

Universal Bore Guide Set (.17 to .416) (#04045) \$18.50

The Essential Gun Maintenance Mat

Protect Your Gun and your workbench. Work like a pro on your Lyman Gun Mat. The firm, yet cushioned surface is perfect for assembling and disassembling firearms (or lots of other hobbies!) for cleaning or maintenance and repair. The molded compartments contain spills and keep small parts out of the way of the main work area but still handy and organized. The mat is chemical resistant and cleans easily with soap and water. Measures 15.75" x 10".

- Chemical Resistant
- Made from synthetic rubber for a non-slip surface
- Protects your gun's finish and your bench's finish
- Molded-in storage compartments keep parts secured & organized

Essential Gun Mat (#04050)\$14.98

All the cleaning
jags & brushes
you'll ever need -
neat and
organized

Complete 26 piece Jag and Brush Set

Lyman's new 26 Piece Jag & Brush Set keeps your bore cleaning necessities protected and organized in a durable, hinged storage container. Containing 26 pieces organized by caliber, this set has slots for each jag and brush from .17 to .45 calibers. The hinged covers are see-through and slots are clearly marked for quick selection. All jags and brushes use standard 8-32 thread except the .17 caliber which uses a 5-40 thread. This set is the perfect companion to Lyman's Universal Cleaning Rod System.

- 26 piece set covers all calibers .17 to .45
- Durable, hinged storage box to keep neat and organized
- Compartments are identified by caliber
- Jags & brushes use a standard 8-32 thread, except .17 cal. uses 5-40 thread

Complete 26 piece Jag and Brush Set (#7631270)\$39.98

**BUTCH'S PRODUCTS ARE PROUDLY
MADE IN THE USA**

The Original Butch's Bore Shine™

Designed by well known bench rest competitor Butch Fisher, this non-abrasive chemical solvent is specifically designed to remove all forms of bore fouling including copper with an absolute minimum of effort and no damage. It will quickly remove carbon build-up, even in difficult to clean areas like the chamber throat. It also removes lead, wax and even plastic shotgun wad build up.

A significant improvement over conventional solvents, Butch's can also control the copper fouling by pushing a few patches soaked with Butch's prior to shooting. Butch's is safe to use on normal and stainless barrels. It is a true "All in One" Cleaner. Try it and you will never use anything else!

Butch's Bore Shine 3.75 oz (#02937)\$12.75
Butch's Bore Shine 8 oz (#02953)\$17.98
Butch's Bore Shine 16 oz (#02941)\$31.50

Benchrest rifles fire many more rounds and undergo much more frequent cleaning than any other firearm. For maximum accuracy, their bores must be surgically clean; yet, they can literally be "cleaned to death" if the wrong cleaner is used. This is why Butch Fisher developed Butch's Bore Shine. Butch's products all deliver benchrest levels of cleanliness and protection for any firearm, even black powder models.

Butch's Black Powder Bore Shine Benchrest clean for black powder guns

Butch's New Black Powder Bore Shine was developed specifically for the Black Powder Shooter who asked for a Better, faster way to clean their Rifles. Butch's Black Powder Bore Shine comes from a special cleaning solvent used by the U.S. Military. This New Black Powder bore cleaner, like the original Bore Shine does it all. Removes Powder, Lead and Plastic Fouling faster than any other cleaner. Best of all it is odorless, non-toxic, non-flammable, biodegradable and protects against rust and corrosion. You can't find a better cleaner for black powder anywhere.

Butch's Black Powder Bore Shine 8oz. (#02949)\$11.50

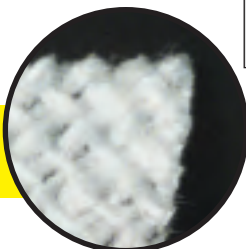

Butch's Gun Oil U.S. Military proven formula

Butch's Gun Oil is an ideal bore protectant and conditioner, especially when used with Butch's solvent. It is a proprietary blend of natural oils that withstands the intense heat, friction and pressures produced in a firearm's chamber and bore. The product's rust inhibitor provides the absolute maximum in corrosion protection for both regular and stainless steel firearms.

Butch's Gun Oil 4oz (#02948)\$9.25

**Butch's "Triple Twill"
Patches have "Drop Zones"
to capture fouling!**

Handi-Pak Containers!

Now, shooters can get Butch's Triple Twill Patches in a more convenient sized package. Each handy and protective screw cap container holds plenty of patches at a lower price than the original bulk packs.

Butch's "Triple Twill" Patches

#02886	3" SQ. Handi-Pak	(75 squares)\$8.25

Butch's "Triple Twill"™ Patches Complete the benchrest cleaning system

To complete the ideal cleaning system, we developed the perfect patch. Like Butch's bore shine, these patches offer superior performance. They hold more liquid and remove fouling faster than ordinary cotton flannel patches. A special fabric used in laboratories and cleanrooms, Triple Twill's special weave has hundreds of tiny "ridges and drop zones" which scrub and capture fouling residues far better than other patches. Butch's Triple Twill patches don't shed lint and have been specially treated for maximum absorbency.

RELOADING PRESSES AND KITS

Crusher™ - Reloading Press

Our Crusher is the ideal press for reloading both rifle and pistol cartridges. The Crusher starts with a 1" diameter ram, compound linkage and a 4 1/2" press opening which makes even the largest magnum cartridges easy to load. Its classic "O" frame design takes all standard 7/8" x 14 dies. The Crusher is equipped with hardened and ground linkage pins and retaining rings for a smooth and tight operation. The base design has 14 square inches of "machined flat" surface area with 3 mounting bolt holes for perfect rigid mounting. Crusher's ball handle mounts for either right or left handed operation. Durable "silver hammertone" powder coat finish and non-rust handle and links makes sure it lasts as good as it looks.

Crusher II (19 lbs.) (#7726300) \$194.95

Durable "Silver Hammertone" Powder Coat Finish

Large 4 1/2" Frame Opening

Right or Left Hand Operation

Kits are available with either the Crusher or T-Mag Press

START WITH THE STUFF YOU'LL KEEP!

T-Mag II Reloading Press

America's favorite high speed turret press offers unmatched versatility, power and precision. The T-Mag II has a Hi-Tech iron frame with state of the art silver hammer-tone powder coat finish for guaranteed durability. Lyman's improved Turret Retention System allows smooth indexing while maintaining rock solid turret support. The turret handle makes indexing easier than ever. The T-Mag II's six station turret head lets the reloader mount up to six different reloading dies at one time. Like more expensive progressive presses the turret head detaches to easily change calibers while retaining precise set-up. The turret handle doubles as a turret removing wrench. No tools required. Obtain extra turret heads and have all your favorite calibers set up to reload.

The T-Mag II features a "flat machined" base that mounts easily to a wood or metal bench. Compound leverage assures a powerful and smooth operation. The handle mounts for right or left hand use. The T-Mag II uses standard 7/8" x 14 dies and can be used for reloading rifle or pistol cases. It comes with universal priming arm, primer catcher, and turret handle.

T-Mag II Press (19.5 lbs.) (#7040781) \$285.95

Base Design is "Machined Flat" for Perfect Mounting to Wood or Metal Bench

Press Accessories

Primer Catcher

Made of heavy duty plastic. Unit locks securely to press, but is easily removed when emptying primers. Fits Crusher II, T-Mag Compound Presses. Primer Catcher (1 oz) (#7726420) \$8.95

Universal Priming Arm

Seats all sizes and types of primers. Supplied with two priming sleeves (large and small). Universal Priming Arm (2 oz.) (#7728036) \$18.95

Auto-Primer Feed

Eliminates handling of primers with oily fingers, speeds loading. Supplied with 2 tubes (large & small). Fits T-Mag II and Crusher II. Auto-Primer Feed (3 oz.) (#7729050) \$32.95

Extra T-Mag Turret

With an extra detachable T-Mag Turret, reloaders can maintain precise set-up while changing calibers. (Will fit old T-Mag. Turret handle not included). Extra Turret (3 lbs.) (#7726153) \$61.50

Bench Wrench

Lyman's Bench Wrench fits all current Lyman die lock nuts and Lyman T-Mag turret support post. The wrench fits Lyman decapping rod, seating screw and expander plug hex nuts. Also Lyman & RCBS 7/8 x 14" nuts.

Bench Wrench (#7990116) \$5.25

Lyman Expert Kit Deluxe with Digital Scale

A truly complete selection of the best reloading tools in one package. For powder handling, no other kit combines both an Electronic Digital Scale and Lyman's famous #55 Powder Measure. Also includes the efficient Universal Case Trimmer with 9 pilots. The kit comes complete with all the accessories needed to add speed and versatility and it also includes Lyman's 49th Edition Reloading Handbook.

T-Mag Expert Kit "Deluxe" 115V (#7810142)\$595.95
T-Mag Expert Kit "Deluxe" 230V (#7810146)\$600.00
Crusher Expert Kit "Deluxe" 115V (#7810149)\$559.95
Crusher Expert Kit "Deluxe" 230V (#7810150)\$575.00

Expert Kit Deluxe Includes All This!

- T-Mag or Crusher Press
- Lyman Electronic Scale
- 49th Ed. Reloading Handbook
- Powder Funnel
- Universal Priming Arm
- Primer Catcher
- Universal Trimmer with Expanded Pilot Multi-pack
- Quick Release Turret System (T-Mag Press only)
- 7/8" x 14 Adapter (mounts powder measure in press)
- #55 Powder Measure
- Case Lube Kit
- Deburring Tool
- Primer Tray
- Auto Primer Feed
- Bench Wrench

Lyman Master Reloading Kit

The Master Reloading Kit compares in price to other starter kits but is the only one that includes a state of the art digital scale. Choose your press, turret T-Mag or single stage Crusher, and get all the high-end Lyman tools and accessories needed to turn out top quality reloads. All you need to add are the dies and shellholder.

T-Mag Master Kit 115V (#7810284)\$529.95
T-Mag Master Kit 230V (#7810296)\$535.00
Crusher Master Kit 115V (#7810281)\$469.95
Crusher Master Kit 230V (#7810292)\$475.00

Master Kit Includes All This!

- T-Mag or Crusher Press
- Compact Electronic Scale
- 49th Ed. Reloading Handbook
- Powder Funnel
- Universal Priming Arm
- Primer Catcher
- Quick Release Turret System (T-Mag Press only)
- 7/8" x 14 Adapter (mounts powder measure in press)
- #55 Powder Measure
- Case Lube Kit
- Case Prep Multi-Tool
- Loading Block
- Auto Primer Feed
- Bench Wrench

Standard Expert Kit

A great way to get started reloading. (Shown with Crusher Press.)

T-Mag Expert Kit (#7810140)\$539.95
Crusher Expert kit (#7810120)\$499.95

Standard Kit Includes All This!

- T-Mag or Crusher Press
- Lyman Pro 500 Scale
- 49th Ed. Reloading Handbook
- Powder Funnel
- Universal Priming Arm
- Primer Catcher
- Universal Trimmer with Expanded Pilot Multi-pack
- Quick Release Turret System (T-Mag Press only)
- 7/8" x 14 Adapter (mounts powder measure in press)
- #55 Powder Measure
- Case Lube Kit
- Deburring Tool
- Primer Tray
- Auto Primer Feed
- Bench Wrench

A Great Way to Get Started!

All Kits Include 49th Edition Reloading Handbook!

Crusher Pro Kit

Lyman's popular Crusher Pro Kit offers big savings on all the basic tools needed to get started in reloading quality rifle and pistol cartridges. The massive Crusher press will handle virtually any pistol or rifle cartridge including the largest magnums.

Crusher Pro Kit (#7810270)\$299.95
----------------------------	---------------

Crusher Pro Kit Includes All This!

- Crusher Press
- Case Lube Kit
- Powder Funnel
- Lyman 49th Reloading Handbook.
- Pro 500 Scale
- Loading Block
- Primer Tray

Greater Accuracy, Longer Case Life, Lyman Innovation.

Two
Die-Sets
in One!

Deluxe 3-Die Rifle Sets

Lyman's Deluxe 3-Die Rifle Sets give reloaders all the options they need to enhance the accuracy of their reloads and extend the life of their brass. By adding both a premium Carbide Expander Assembly and a Neck Sizing Die, Lyman has created two die sets in one. Neck sizing eliminates over-working the brass, dramatically extending case life.

The set includes:

- **Deluxe Carbide Expander Assembly**, with a free floating carbide sizing button, which smooths neck expansion by moving the button up the decapping rod to better use the press' leverage. It eliminates the need for inside neck lube.
- **Neck Sizing Die** which allows the case to retain the precise chamber dimensions of the individual rifle while avoiding excessive working of the brass.
- **Standard Full Length Sizing Die** for taking brass down to factory Dimensions.
- **Standard Bullet Seating Die**

Deluxe 3-Die Rifle Sets:

3 Die Rifle Set .204 Ruger	#7680230
3 Die Rifle Set .22-250	#7680232
3 Die Rifle Set .223	#7680234
3 Die Rifle Set .243	#7680236
3 Die Rifle Set 6.5 x 55	#7680238
3 Die Rifle Set 6.5 x 55 Skan	#7680239
3 Die Rifle Set .270 Win	#7680240
3 Die Rifle Set .30-06	#7680242
3 Die Rifle Set .308	#7680244
3 Die Rifle Set .300 Win	#7680246
3 Die Rifle Set 7mm Rem. Mag	#7680248
3 Die Rifle Set .338 Win. Mag	#7680249
3 Die Rifle Set .338 Lapua	#7680250
All 3-Die Sets	\$78.95

Why Bother with Neck Sizing?

Accuracy conscious reloaders have long relied on neck sizing for achieving maximum accuracy potential. By maintaining a perfect fit of cartridge to chamber, neck sizing has been proven to create much more accurate reloads.

Now, reloaders can achieve the maximum accuracy out of their reloads with Lyman's new Deluxe Carbide 3-Die Rifle set. And they can do this on their regular press. Lyman started with a standard two die rifle set - full length size and bullet seat/crimp dies - and added a neck size die with Lyman's Deluxe Carbide Expander assembly.

Once cases have been full length sized and fired in a specific rifle, the neck size die with the carbide expander is used to maintain the precise chamber to case fit for maximum accuracy potential. Less working of the brass also contributes to much greater case life.

Just as important, the ultra-hard and smooth carbide expander button is free floating and glides concentrically through the neck for precise sizing with less drag and neck stretching. The higher position of the button on the decapping stem advances the neck expanding operation to better use the press's leverage. Inside neck lubrication is also eliminated for more consistent bullet tension. The carbide decapping rod and carbide expander can be used in the normal full length sizing die as well. The Deluxe Carbide three die rifle sets are really like two die sets for the price of one. They are available in a range of popular calibers.

NECK SIZE DIES & CARBIDE EXPANDER RODS

Already have a full length die set? The Deluxe Carbide Neck Size Die is available separately so you can upgrade your current dies for maximum accuracy potential. The Deluxe Carbide Expand and Decap Rod assembly can also be purchased individually to fit both Lyman and RCBS Rifle sizing dies.

**Lyman Gives You
Both Inside and Outside
Neck Sizing in One Die!**

Deluxe Neck Size Dies with Carbide Expander Button

Lyman's Neck Size Die with carbide expander button enhances the value of any manufacturer's standard die set and eliminates the need to full-length resize and overwork the brass. It will also provide better accuracy - ask any target shooter! Use the full length sizing only when you need to.

The Lyman Deluxe Neck Sizing Die features a precision machined and hardened die body along with a super hard and slick carbide expander button. The expander button also free floats on the rod to allow it to self-center in the case neck and the slick button easily passes through the case neck. The result is a die that will reduce case stretching, increase case life and provide enhanced accuracy for the reloader.

Deluxe Carbide Expander/Decap Die Rod Complete

The Lyman Deluxe Carbide expander and decapping rod assembly features a super hard and slick carbide expander button with an adjustable positioning sleeve. The carbide button will offer easier extraction through case necks, which will help prevent case stretching and lessen case trimming. This will provide greater case life. The carbide button also floats free on the rod to allow for self-centering in the case neck. The button can be adjusted into two positions on the rod. This will allow it to be positioned for various cases of given calibers. It will also allow the user to adjust when the button pulls through the case neck so the press linkage can be positioned for better leverage. **Includes adapter for use with RCBS dies.**

- Super hard and slick carbide expander button
- Fits all Lyman rifle sizing dies
- Carbide button can be adjusted for height
- Carbide free floats on the rod for self-centering in case necks
- Replaceable decapping pin

PRECISION RIFLE DIE SETS

Lyman Precision Rifle Die Sets

Rifle 2-Die Sets

Set consists of a full length resizing die with decapping stem and neck expanding button and a bullet seating die. These die sets are the reloader's best choice for loading jacketed bullets in bottlenecked rifle cases. For those who load cast bullets, we suggest the addition of a neck expanding die, available separately.

2-Die Sets\$46.95

Rifle 3-Die Sets

Straight wall rifle cases require these three die sets consisting of a full length resizing die with decapping stem, a **two step neck expanding (M) die** (described on pg 15) and a bullet seating die. These sets are ideal for loading cast bullets due to the inclusion of the neck expanding die.

PRECISION PISTOL DIE SETS

Lyman Precision Pistol Die Sets

Reloaders want volumes of reloads which deliver consistent quality. When it comes to precision, smoothness and versatility, Lyman Precision Dies are unsurpassed. Each sizing die is vented, polished, heat treated for toughness and receives a final micro-finish polish for extra smoothness. Lyman pistol die sets feature only solid, premium Tungsten Carbide sizing rings. They also include a one piece solid decapping rod made from hardened, heat treated tool steel that will not crack, even when depriming cases with crimped primer pockets.

Remember, Lyman dies fit all popular presses using industry standard 7/8" x 14 threads, including RCBS, Lee, Hornady, Dillon, Redding and others. Whether 2-, 3- or 4-die sets, these dies deliver round after round of the high performance ammo serious shooters demand.

3-Die Carbide Pistol Die Sets

Lyman was the originator of the Tungsten Carbide (T-C) sizing die and "Multi" concept with the addition of extra seating screws for pistol die sets. Combined with another Lyman original - the two step neck expanding die, our Multi-Deluxe Die Sets offer these features: a one piece hardened steel decapping rod and extra seating screws for all popular bullet nose shapes, and all steel construction.

3-Die Sets\$68.95

Premium Carbide 4-Die Sets

In addition to all the features of our three die sets, the Premium Carbide 4-Die Sets also include a separate taper crimp die. The 4-die set is perfect for those loading pistol calibers that headspace on the case mouth.

Special Purpose Dies *The Perfect Addition to Any Die Set*

It's a fact. Many of Lyman's most popular, problem-solving products have been developed from requests of our knowledgeable customers. Lyman Specialty Dies are perfect examples. Each one is the perfect answer to a recurring reloading need. Take a look at Lyman's Specialty Dies. You'll agree.

Multi-Expand Charge Die System

Designed to save the pistol reloader time. The hollow expanders allow you to expand the case and drop powder at the same time with your powder measure mounted on top. Fits all standard powder measures.

Includes expander body, hollow expanders for .32, 9mm, 38/.357, 10mm/40 S&W, .41, .44 and .45 plus a non-expanding universal powder drop tube.

Multi-Expand (12 oz.) (#7767901)\$42.95

Universal Decapping Die

The ideal die for decapping primers prior to case cleaning. **It has a unique one piece hardened steel decapping rod.** Perfect for military crimped in primers. Works on all calibers .22 thru .45 except .378 and .460 Weatherby.

If you use a vibratory tumbler or sonic cleaner, this die provides the necessary first-step.

Decapping Die (12 oz.) (#77631290)\$23.95

The first step before ultrasonic cleaning.

Ram Prime Die System

Designed for sensitive one-at-a-time primer seating on top of a press. Works with all 7/8" x 14 threaded presses. Includes large and small primer punches.

Ram Prime (10 oz.) (#7728040)\$24.95

Tungsten Carbide Die

Pioneered by Lyman, these premium dies use a diamond hard, tungsten carbide ring to size straight walled cases. The T-C ring is so hard that clean cases can be smoothly sized without case lube. A real time saver. (see page 14)

Tungsten Carbide Die\$46.95

Neck Size Die

A Neck Size Die allows the reloader to properly size the case neck for optional bullet tension, while maintaining the fire-formed dimension of the case body. Accuracy is increased when the case body closely fits into the chamber. The Neck Size Die includes a decapping rod and steel expander button.

Standard Neck Size Die\$35.95

The Two-Step Neck-Expanding (M) Die

**A Lyman
Original**

Improves accuracy of cast and jacketed bullet reloads. Doesn't stretch cases as does standard expander button. Extends case life. A "Must-Have" die for the cast or flat-base bullet user.

Many reloaders consider Lyman's Neck Expanding (M) Die a valuable tool for improving the accuracy of their reloads. The die's expander plug has two steps. (See illustration)

Neck-Expanding Die\$24.95
(see charts pg. 12-14)

A. 1) The first step expands the inside of the case neck to just under bullet diameter for precise case neck tension in the finished reload. (See Illus. A.)

B. 2) The second step expands the case mouth to bullet diameter or slightly over. This allows the jacketed or cast bullet to be started perfectly centered in the case mouth and properly aligned with the axis of the caseneck. (See Illus. B.)

C. NOTE: By adjusting the neck expanding plug slightly deeper, Step 2 also provides a slight flaring of the case mouth for reloaders using cast bullets. (See Illus. C.)

Upgrade Your Standard Rifle Set Today

Deluxe Neck Size Dies with Carbide Expander Button

**Easy
Upgrade**

The Lyman Deluxe Neck Sizing Die features a precision machined and hardened die body along with a super hard and slick carbide expander button. The expander button also free floats on the rod to allow it to self-center in the case neck and the slick button easily passes through the case neck. The result is a die that will reduce case stretching, increase case life and provide enhanced accuracy for the reloader. (see page 11)

Deluxe Neck Size Dies\$42.95

Taper Crimp Die

A Taper Crimp dies apply the proper taper crimp to pistol cases. Essential for proper function in auto pistols. Unlike some other die manufacturers, we feel that taper crimping is best done in a single purpose die station. Just add the taper crimp die to your current die set for a complete progressive reloading die set.

Each Taper Crimp die is heat treated to an RC50 minimum surface hardness. The interior is hand polished before and after heat treat to an 8 rms finish.

Taper Crimp Die\$27.25

(See Die Charts pages 12-14 for complete listings)

Decapping Rods and Assemblies

Pistol rods are available in two styles; our original (threaded) rod unit with replaceable decapping pins and our one piece system. This decapping rod is a stronger one piece design with a hardened pin. All pistol dies are currently equipped with this rod. Rifle dies have an improved centering system requiring two different decapping rod lengths, 3.5" or 4.25", depending on caliber of the die. When ordering decapping assemblies, please indicate length or style required.

Pistol

Decapping Rod Unit (with Replaceable Pin) (#7129001)\$4.95
One Piece Decapping Rod (#7990524)\$3.95

Rifle

Decapping/Expanding Unit (state caliber)\$8.25
Rod Only 31/.2" (#7126011)\$3.25
Rod Only 4V4" (#7126012)\$3.25

Decapping Pins

Package of 10 (#7837786)\$2.95

Special Die Accessories

Split-lock Ring

Popular steel split ring. Fits all 7/8" x 14 dies
(#7631304)\$4.25

New Style -7/8" Hex Nut

Works with Bench Wrench (#7990119)\$2.75

Die Boxes

Durable plastic box with snap lock hinged cover
For individual Die (#7631303)\$2.50
For Die Set (#7980399)\$3.25

J to X Shell holder Adapter

For use with Lyman's older presses which used the older J-Type shell holders.
Converts press to use current X-Type shell holders
(#7095762)\$16.50

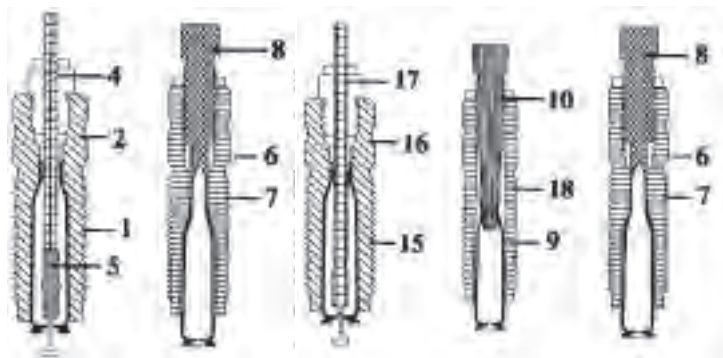

Special T Priming Punch

Required when using J to X shellholder adapter to seat primers in older style presses.
Includes both large and small punches and sleeves.
(#7095763)\$9.50

7/8 x 14 Adapter

For use in converting 310 dies for use in current 718 x 14 presses. Also mounts Model 55 Powder Measure to press.
(#7392036)\$8.95

BLACK POWDER & COWBOY DIES

Cowboy Shooters Round Up

Lyman has corralled a collection of other products that are sure to please the cowboy.

- The 55 Classic Black Powder Measure and Drop Tube (pg. 24)
- Moulds of original design for the cowboy cartridges (pgs. 46-48)
- Original Lyman Tang Sights (pg. 53)
- A-Zoom Snap Caps in all the old cartridges (pgs. 96-97)

A Lyman
Original

310
Tool

Classic Rifle Calibers at "Non-Custom Prices"

Cowboy shooting and the fine reproduction Sharps and other classic rifles have generated new interest in shooting the "obsolete" rifle calibers. But the custom reloading dies needed for these fine guns have been expensive and hard to find.

Lyman's Classic Rifle Die Sets have eliminated all the problems of costly custom dies. Lyman's die sets are available in the popular Sharps calibers listed below. These standard 7/8" x 14 3-die sets will fit all popular reloading presses and include Lyman's popular "M" 2 Step neck expanding die.

Caliber	Part No.	Caliber	Part No.
40-60	#7460507	45-100-2.6	#7460520

45-90	#7460499		

Price\$71.95

Black Powder Neck Size Dies

Classic rifle shooters rely on Lyman's neck size dies to retain the fireformed case dimensions. By not overworking the brass, these dies produce superior accuracy and extend the life of expensive shells. These neck size dies are available in the following sizes:

40 Cal. (40-65, 40-70 Sharps Straight) (#7135055)	\$35.95
45 Cal. Short (45-70, 45-90, 45-100) (#7135057)	\$35.95
45 Cal. Long (45-110, 45-120) (#7135059)	\$35.95

Black Powder Taper Crimp Dies

BP cartridges require compression for proper ignition. This requires firm neck tension to hold the bullet without damage. The Taper Crimp Dies have a minimum taper that allows the reloader to apply the proper neck tension without damaging the bullet for best accuracy.

40 Cal. (40-65, 40-70 Sharps Straight) (#7153120)	\$27.25
45 Cal. Short (45-70, 45-90, 45-100) (#7153124)	\$27.25
45 Cal. Long (45-110, 45-120) (#7153126)	\$27.25

The 310 Tool by Lyman

Truly a century of proven service to the shooter. When Lyman first brought out the original version of the 310 Tool more than 100 years ago, it was named "The Ideal Tool" and was sold as standard equipment along with the classic Sharps and Winchester rifles of that era. This simple and compact reloading kit can go anywhere. Produce pistol or rifle loads by hand in virtually any situation. Includes: neck resizing and decapping die, primer seating chamber, neck expanding die, bullet seating die and case head adapter. Purchase handles separately. See listing.

E-ZEE PRIME™ HAND PRIMING TOOL

Ergonomic shape
designed to
minimize
hand fatigue.

Comes with large and
small size primer tray/primer
punch assemblies.

Works with Lyman,
RCBS, Lee &
Redding
Shellholders

Change primer size instantly and use
any shellholder you already have.

E-ZEE Prime Hand Priming Tool

Lyman has introduced a dramatic improvement in hand-held priming systems: The E-ZEE Prime Hand Priming Tool. The system works with any popular brand of shellholder and allows instant changeover between primer sizes. Lyman's E-ZEE Prime Tool includes two primer trays, each of which incorporate their own built-in large or small primer punch assembly. There are no small parts to fuss with or lose. Each tray has a built-in shut-off gate to keep primers in place during change-over. The reloader simply removes the snap-in-place lock collar and installs the correct sized primer tray and his standard shellholder as needed. Then the lock collar is snapped in place and the change-over is complete. The primer trays also function as a primer flipper to properly orient primers for seating.

In addition, the tool has a comfortable ergonomic design that works with the tool's optimized leverage system to reduce hand fatigue.

- Ergonomic shape designed to minimize hand fatigue
- Accepts all popular brands of standard shell holders, including Hornady, RCBS, Redding, and Lee Precision
- Plenty of leverage, yet provides needed "feel" for precision primer seating
- Integral primer tray and primer punch assembly - no small parts to lose
- Comes with large and small size primer tray/primer punch assemblies
- Primer tray has a built-in shut-off gate to prevent spilling primers
- Primer tray doubles as a flipper to orient primers for use

E-ZEE Prime Hand Priming Tool (#7777810) \$49.95

GEN 5 POWDER SYSTEM

Gen5™
Touch-Screen
Powder System

**LYMAN INTRODUCES
THE NEXT GENERATION
OF POWDER SYSTEMS**

Lyman Touch Screen Technology!

Gen5 Touch Screen Powder System

Accurate to one tenth grain, The Gen5™ dispenses all types of smokeless powder at two grains per second. In addition, it features an auto repeat function that drops a precise charge each time the pan is reset.

Based on totally new digital technology that overcomes problems commonly experienced by older designs, the system is packed with additional state of the art improvements like fast, 3-minute warm-up, new anti-static and anti-drift technology and has sophisticated electronic shielding to resist interference from other electronic devices like cell phones, etc. The top of the line Gen5 adds the benefit of an extra large, easy-to-read LCD screen and touch screen controls, and a large, 1500-grain capacity. Plus, the quick drain powder reservoir speeds powder changes and the on-board memory stores up to 100 loads.

Quick drain to change powders

- New Touch-Screen Controls
- Stores up to 100 Loads in Memory
- Extra Large, Easy-to-read LCD Display
- New Fast, 3-Minute Warm-up
- Auto Repeat Function
Automatically Dispenses Charges By Resetting Pan
- Quick-Drain to Change Powders
- New Electronic Interference Shield Resists Interference from Cell Phones, etc.
- New Anti-Static/Anti-Drift Technology
- Fast Operation - Dispenses 2 Grains per Second
- Accurate to 1/10 grain
- Handles All Types of Smokeless Powder

Gen5 Touch Screen Powder System (115/230V) (#7750600)\$369.95

GEN 6 COMPACT POWDER SYSTEM

SIMPLE, FAST, PRECISE.

Gen6™
Compact
Powder System

High Performance - Small Footprint!

Gen6 Compact Touch Screen Powder System

The compact Gen6 design takes a minimum of bench space and offers unrestricted pan and touch screen access for both right- and left-hand users. Accurate to one tenth grain, The Gen6™ dispenses all types of smokeless powder at two grains per second. In addition, it features an auto repeat function that drops a precise charge each time the pan is reset.

Based on totally new digital technology that overcomes problems commonly experienced by older designs, the system is packed with additional state of the art improvements like fast, 3-minute warm-up, new anti-static and anti-drift technology and both have electronic shielding to resist interference from other electronic devices like cell phones, etc.

- 1500 Grain Capacity
- New Touch Screen Controls
- New Compact Size - Uses 50% Less Bench Space!
- Auto Repeat Function Drops Charges Each Time Pan Is Reset
- Fast Operation - Dispenses 2 Grains Per Second
- Easy To Use Controls and Powder Pan Access for both Right and Left Hand Users
- New Anti-Static/Anti-Drift Technology
- New Electronic Interference Shield Resists Interference from Cell Phones, etc.
- Quick-Drain Powder System for easy Powder Changes

**Extra Large,
easy-to-read
LCD Display**

Gen6 Touch Screen Powder System (115/230V) (#7750550)\$299.95

ELECTRONIC SCALES

Accu-Touch™ 2000 Electronic Reloading Scale

The Accu-Touch 2000 reloading scale from Lyman offers many revolutionary features. It comes with a removable powder trickler that can be mounted on the scale in a right or left-hand position. Unlike most competitive scales, the Accu-Touch 2000 is accurate to within 1/10 of a grain over its full, extra large, 2000 grain capacity. It works in either grain or gram mode. The handy pop-out tray on the back stores all your accessories, and the fold back dust cover keeps the scale protected. Also includes calibration weight, Universal AC Adapter, and cleaning brush. It will also run on a 9V battery (not included).

- New Touch Screen Controls
- 2000 Grain Capacity
- New Anti-Drift Technology Assures Accuracy to 1/10 Grain
- Includes Removable Powder Trickler that Works in Right or Left-Hand Position
- Includes Powder Brush & Universal AC Adapter
- Handy Pop-Out Tray Stores Accessories
- Fold Back Dust Cover to Protect Scale
- Grains or Grams

Accu-Touch 2000 (115/230V)
(#7751558)\$154.95

The Leading Edge in Reloading Technology

**Features a
Handy Pop-Out
Tray for Storage!**

**All Scales Feature
New Touch Screen
Technology and
Bright LED Displays**

Pro-Touch™ 1500 Electronic Reloading Scale

Lyman's Pro-Touch 1500 scale features a large, easy to use touch screen display with easy to read 7/8" tall numbers and full size control buttons. The Pro-Touch 1500 is accurate to +/- 1/10 grain over its full 1500 grain capacity. The dual spout powder pan allows for easy use by either right-handed or left-handed reloaders. The removable dust cover will protect the scale when not in use. The Pro-Touch 1500 will operate with either the supplied AC power adapter or with three AAA batteries (not included).

- Advanced Touch-Screen Technology
- 1500 Grain Capacity
- Accurate to 1/10 Grain
- Works in Grain or Gram Mode
- Removable Dust Cover
- Large, Easy to Read Digital Display with Full Size Control Buttons

Pro-Touch Desktop Reloading Scale (115V) (#7750718)\$99.95
Pro-Touch Desktop Scale (International 230v) (#7750721)\$105.00

Micro-Touch™ 1500 Electronic Reloading Scale

Lyman's smallest electronic scale, The Micro-Touch 1500 has all the features of much larger models combined with state-of-the-art touch screen controls. Just 3.25" wide by 5.375" long and 1.25" tall with the dust cover in place, this scale has a full 1500 grain capacity. It is powered by an included AC adapter, but can also function on battery power when at the range or camp. The Micro-Touch 1500 also includes its own powder pan and calibration weight.

- New Touch Screen Controls
- 1500 Grain Capacity
- Accurate to 1/10 Grain
- Works in Grain or Gram Mode
- Fold Back Dust Cover
- Works with AC Adapter (included) or 3 AAA Batteries
- Large Easy-to-Read Digital Display

**Micro-Touch is
approximately half the size
of the Benchtop Pro-Touch
and Accu-Touch Models**

MECHANICAL SCALES & ACCESSORIES

C

Deluxe Weight Check Set

Shooter's Weight Check Set

A. Pro 1000 Mechanical Scale

This model has the same features and accuracy as the Pro 500 but measures up to 1000 grains. Includes scale counterweight for measurements over 500 grains.

Pro 1000 (#7752218)\$89.95

B. Pro 500 Mechanical Scale

Pro 500 Scales have the same accuracy and components as the older Lyman 500 on a modern, high-impact styrene base. Features include an extra large leveling wheel, dual agate bearings and large dampener. Zeros in seconds. Accurate to 1/10 grain. 500 grain capacity.

Pro 500 (#7752222)\$77.95

C. Scale Weight Check Sets

Assures that scales provide accurate readings. Deluxe 10-piece set has 210.5 grains total weight. Shooters set totals 60.5 grains for normal powder use range.

Deluxe Set (#7752313)\$47.95

Shooters Set (#7752314)\$35.95

D. Powder Dribbler

Use the full measure of accuracy built into a powder scale. Features a large powder reservoir and tip-free base.

Dribbler (4 oz.) (#7832201)\$15.50

E. E-ZEE™ Powder Funnel

Redesigned with all of the latest cartridges in mind, the specially designed powder nozzle of this funnel handles everything from the smallest .22 up to the big .50 calibers. Including the Super Short Magnums.

Funnel (1 1/2 oz.) (#7752431)\$5.75

POWDER MEASURES AND HANDLING ACCESSORIES

55 Classic Powder Measure is Ideal for Black or Smokeless Powder

Competition Powder Baffle Now included with Standard 55 & 55 Classic Powder Measure

The 55 Powder Measure's unique 3-slide metering bar can precisely dispense any load, from the smallest pistol to the largest rifle with simple adjustments - no need to change slides.

The 55's unique rear mounting clamp maximizes mounting versatility.

No. 55 Adjustable Powder Measure

This powder measure dispenses charge after charge of powder with consistent accuracy to a fraction of a grain. The key to unfailing precision is the 55's unique three slide adjustable cavity. Extra fine adjustments of width and depth provide consistent charges with almost any powder. A 2400 grain reservoir resists chemical action and protects your powder from harmful light rays. An attached knocker assures a complete charge every time. Mount the 55 on your bench or any turret press. No funnel is required. Includes a 7/8" x 14 thread adapter for press or stand mounting.

No. 55 Measure (2 lbs., 10 oz.) (#7767783)\$112.50
Optional 7000 grain reservoir (31 1/2 oz.) (#7998299)\$10.75

55 Classic Black Powder Measure

Redesigned for both smokeless and black powder. The internal metering bars rotate in a non-sparking brass sleeve. A large non-static aluminum powder reservoir holds a pound of black powder. The unique three-slide adjustment bars are the key to consistent accuracy from small pistol charges to the largest rifle charges with accuracy to a fraction of a grain. Handles up to 200 grains. Mounts on the bench or directly on a press or powder measure stand and includes a 7/8 x 14 adapter.

55 Classic with 24" drop tube (#7767775)\$187.50

Powder Pal™ Universal Funnel Pan

An innovative product for the reloader. The One Piece Combination Powder Pal Funnel Pan. This unique Funnel Pan saves time by saving one step during reloading. It is no longer necessary to put the funnel on the cartridge case and pour the powder in. Just pour it directly from the Funnel Pan into the case. Every reloader with an electronic scale will want to replace the powder pan with a time saving Powder Pal Funnel Pan. More innovations from Lyman. For use with electronic scales only. (US Patent # D568436)

Funnel Pan (#7752433)\$7.50

24" Powder Drop Tube for 55 Classic

To fill the cartridge case with the maximum amount of black powder, the powder must be poured slowly through a drop tube which allows the powder to uniformly settle in the case for best accuracy. It mounts directly in the 55 Classic Black Powder Measure.

24" Drop Tube (#7767764)\$41.95

Powder Measure Stand

Features the standard 7/8" x 14 thread and will raise any measure high enough to easily position cases beneath the powder drop tube. Bolts firmly to the loading bench.

Measure Stand (3 lbs., 6 oz.) (#7767784)\$36.95

Competition Powder Baffle

Consistent powder drops from the powder measure requires a uniform powder pressure on the rotor. The powder baffle maintains this consistent powder pressure even when the powder hopper is low. Included with all Lyman 55 Powder Measures.

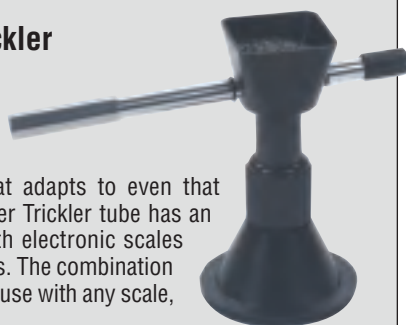

Baffle (#7767758)\$9.75

E-ZEE Flo™ Universal Powder Trickler

Now the first powder Trickler that works with any reloading scale. Lyman's E-ZEE-FLO accessory powder Trickler features an adjustable base that adapts to even that highest scale platform. Powder Trickler tube has an extension that allows use with electronic scales that have larger platform bases. The combination of the two adjustments allows use with any scale, mechanical or electronic.

Powder Trickler (#7752477)\$24.95

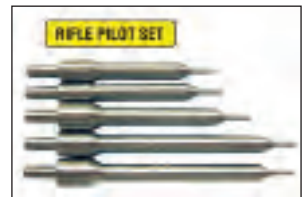

Full range of height adjustment handles any reloading scale.

E-ZEE Trim Hand Case Trimmer

The industry leader in trimming and case prep innovation, Lyman introduces a new case trimming system for the reloader interested in economy or preferring to have an individual precision hand system for each caliber. The E-ZEE TRIM case trimming system allows the user to trim cases by hand or with a power attachment (included) to precise pre-set length - no adjustment of measuring needed. The trimmer comes with a case locking device, cutter, trim-to length pilot, cutter head and both hand and power trimming adapters. The trimmer works with any standard shell holder including Lyman, Redding, RCBS, Hornady and Lee Precision. Assembles in seconds and you are ready to trim cases. The E-ZEE TRIM system comes in three practical variations to make it simple for the consumer and simpler for the trade to stock.

E-ZEE TRIM Rifle Set includes hand trimmer, power adapter, cutter head and 5 most popular rifle caliber pilots (.223, .243, .270, .30-06, .308)

E-ZEE TRIM Handgun Set includes hand trimmer, power adapter, cutter head, and 6 most popular handgun caliber pilots (9mm, 38 Spec. 357, 40 S&W, 44 Mag, 45ACP)

E-ZEE TRIM Universal Set includes hand trimmer, power adapter, and cutter head. Just add the pilot for the caliber you wish to trim.

CASE TRIMMERS & ACCESSORIES

**Start with
The Best!**

Versatility, Precision, Value

Precise case length is critical to pinpoint accuracy and smooth, reliable functioning. That's why serious reloaders trust Lyman for the right tool to make case prep fast, easy and precise. Lyman has the broadest selection of case trimming tools in reloading. In addition, Lyman offers the accessories and adapters to meet every case trimming and prep need.

Universal® Trimmer

Lyman's Universal Trimmer features the popular Universal Chuckhead which handles any case from .17 caliber to .458. No costly collets required! Features coarse and fine adjustments. Adjusting ring lets you "dial in to an approximate setting for quick repeatability". Includes 9 of the most popular pilots. Optional power adapter lets you upgrade to power in seconds.

Universal Trimmer (#7862000)\$111.95

Universal® Carbide Case Trimmer

This case trimmer adds the longer life and ultra-sharp cutting qualities of a carbide tool to Lyman's well-known Universal trimmer. The Universal Carbide Case Trimmer takes advantage of the premium Carbide Cutter Head's fine grain and ultra-sharp cutting edge. This Carbide Head will hold its edge and dimensions longer, making this trimmer ideal for volume reloaders. Lyman's Universal Chuckhead handles any case from .17 caliber to .458 caliber with no collets or shell holders required and includes 9 of the most popular caliber pilots.

Universal Carbide Case Trimmer (#7862009)\$137.50

AccuTrimmer™

Trims cases .17 through .458 Win. Mag. Uses standard shellholders to position cartridge and standard Lyman cutter heads and pilots. Includes our popular nine Pilot Multi-Pack. Purchase with shellholder set shown on page 11 and reloader has universal "trimability".

AccuTrimmer Multi-Pack (1lb. 9 oz.) (#7862210)\$71.95

50 BMG AccuTrimmer

An AccuTrimmer designed specifically for 50 BMG cartridges. The shell head fits into a special holder which centers the case with the cutting shaft. A special 50 BMG pilot is included for perfect alignment and easy trimming.

50 BMG (#7862130)\$83.95

Outside Neck Turning Tool

Designed for Lyman's Universal Trimmer and AccuTrimmer, this tool guarantees neck wall thickness and outside neck diameter. Adjustable cutter removes minimum brass to attain uniformity. Cutter blade can be adjusted to any diameter from .195" to .405". Includes 2 extra cutting blades. Includes six mandrel Multi-Pack (for .22, .243, .25, .270, 7mm, and .30 cal). *(Not adaptable to Power Trimmer.)*

Outside Neck Turner with Multi-Pack (12 oz.) (#7810185)\$45.95

Six mandrel Multi-Pack (2 oz.) (#7810175)\$17.50

Replacement Cutters (2 pk. w/wrench) (1 oz.) (#7810165)\$8.75

Extra mandrels* (state size) (1 oz.)\$4.75

*See table supplied with neck turner for listing, or call Customer Service.

CASE PREP TOOLS & ACCESSORIES

Ultimate Case Prep Kit

The Ultimate Case Prep Kit gives the reloader all of their necessary case prep tools in one handy organized storage case. The kit offers a great value compared to purchasing each item individually – a 40% savings! Everything is there to process cases after trimming as well as accuracy prep work for the most accurate reloads possible.

Kit Contains:

- E-ZEE Case Gauge
- Magnum Inertia Bullet Puller with two collets (5.7 x 28FN - Largest Magnums)
- Extra Large Deburr Tool (Inside & Outside)
- Outside Chamfer Tool
- Flash Hole Uniformer
- VLD Chamfer Tool
- Small Primer Pocket Reamer
- Large Primer Pocket Reamer
- Small Primer Pocket Uniformer
- Large Primer Pocket Uniformer
- Small Primer Pocket Cleaner
- Large Primer Pocket Cleaner
- Nylon Case Neck Brushes: 25 Cal, 30 Cal, 38 Cal, 45 Cal plus handle for brushes
- Dry Case Neck Lube

Ultimate Case Prep Kit (#7810209)\$139.95

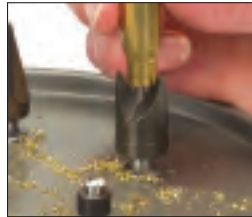

Case Prep Xpress™

Lyman, the industry innovator in case preparation for decades, now brings to market the most complete electric case prep system ever developed. The Case Prep Express is the only "All-Inclusive" System offering all the most popular case prep accessories driven by a high torque gear motor. The Case Prep Xpress allows the user to simultaneously do 5 different case prep operations. Removable dump pan provides easy clean up of brass shavings. The best part is that all accessories are included from the start, no need to have to separately purchase expensive additional accessories. Included Accessories:

- Inside Deburr (VLD) Tool
- Outside Deburr Tool
- Primer Pocket Uniformers (Small & Large)
- Primer Pocket Reamers (Small & Large)
- Primer Pocket Cleaners (Small & Large)
- Case Neck Brushes (25 Cal, 30 Cal, 38 Cal, 45 Cal)
- Case Neck Lube (Mica)
- Removable Brass Shavings Dump Pan
- Clean-up brush

Case Prep Xpress (115V) (#7810220)\$169.95

Case Prep Xpress (230V) (#7810223)\$172.50

• Outside Deburr Tool

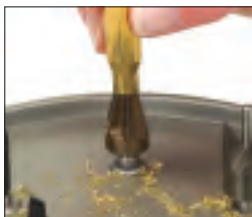

• Primer Pocket Cleaner

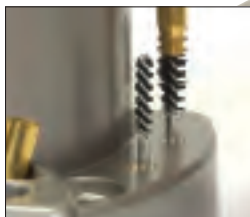

• Primer Pocket Reamer

• Primer Pocket Uniformer

• VLD Inside Deburr

• Case Neck Lube Brushes

All the case prep tools powered and ready to go.

Cordless Power Case Prep Tool

Now reloaders can perform all the important case prep functions faster and more efficiently than ever before with Lyman's all new Power Deburring Kit. High torque rechargeable power driver turns at the perfect speed for performing inside and outside deburring operations in seconds. Set includes all the essential case prep accessories, including large and small primer pocket reamers and cleaners, case neck brushes, and inside/outside deburring tools. With the hex adapters (included), accessories simply pop in and out of the driver, (no threading or chucking required). Set also includes standard and Phillips driver bits. Take the drudgery out of your case preparation with this one amazing set.

Deburring Kit (#777758) 115V \$67.95

Universal Case Prep Accessory Set

This handy kit is the perfect accessory to your Universal Case Trimmer. It contains everything you need to properly complete case preparation, all in a durable storage pouch. Save over 30% versus individual purchases.

Case Prep Accessory Set (#7810212) \$73.50

A. Primer Pocket Reamers

Remove military crimps and rough metal edges from a primer pocket. Available in large and small sizes.

Reamer Large (#7777785) \$11.40

Reamer Small (#7777784) \$11.40

B. Primer Pocket Cleaners

Clean out fouling of primer pocket bottoms. Available in large and small sizes.

Cleaner Large (#7777790) \$11.40

Cleaner Small (#7777791) \$11.40

C. Primer Pocket Uniformers

This precision tool allows reloaders to assure uniform primer depth which produces consistent ignition and improves accuracy. Uniforming tool has a pre-set stop collar set to SAAMI specs. Reloader simply inserts and turns. Available in large and small sizes. (For rifle cases only)

Uniformer Large (#7810215) \$23.25

Uniformer Small (#7810218) \$23.25

D. Lyman VLD (Very Low Drag) Chamfer/Reamer

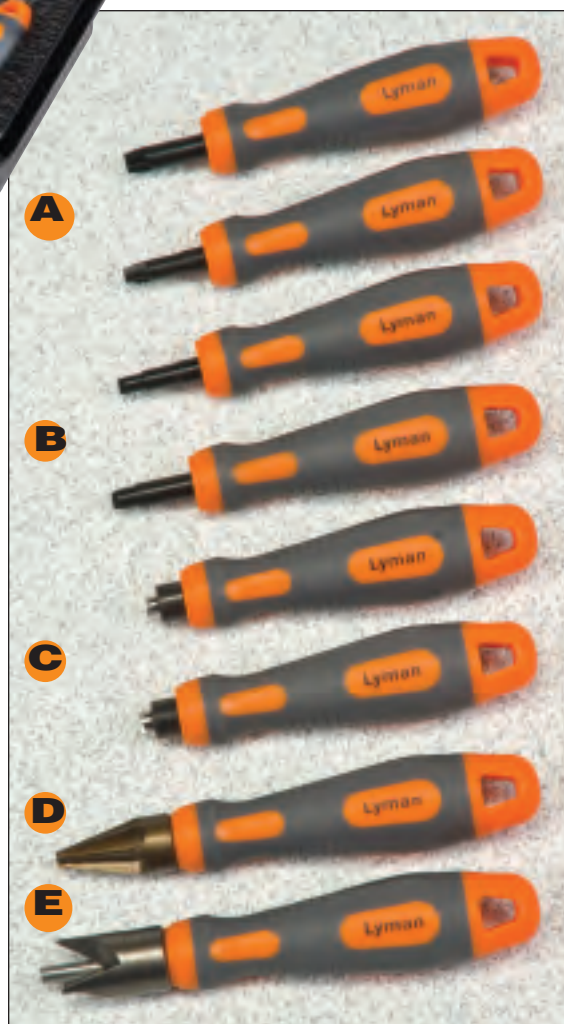

Lyman's VLD Chamfer/ Reamer eliminates damage to bullets caused by the sharp edges of the cartridge case neck. The long boat tail on VLD bullets are cut by the case mouth when chamfered with a standard 45 degree reamer. The sharp 22 degrees on the VLD reamer allows all bullets to slip easily into the case ensuring the best accuracy. Recommended for Sierra VLD and other manufacturer's VLD bullets.

Chamfer/Reamer (#7777789) \$14.25

E. Outside Chamfer Tool

Bevels and removes burrs from the outside of the case mouth. Precision machined and hardened, fits all cases from .17 to .45 caliber.

Outside Deburring Tool (#7810222) \$14.25

CASE PREP TOOLS & ACCESSORIES

Case Prep Multi-Tool

Lyman's Unique New Case Prep Multi-Tool provides the reloader with all the essential Case Prep Accessories in one compact, Double-ended Storage Too. Unique knurled handle unthreads in the middle to store all parts. Both ends of the handle are threaded to allow two tool heads to be mounted simultaneously. Includes:

- Outside Deburring Tool
- VLD Inside Deburring Tool
- Large & Small Primer Pocket Cleaners
- Large & Small Primer Pocket Reamers

Case Prep Multi-Tool (#7777800)\$29.95

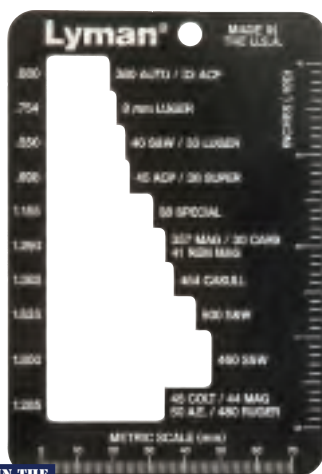

50 BMG Case Prep Multi-Tool

Reloaders of the Big 50 no longer have to make do with undersized standard or makeshift tools to prep their 50 BMG cases. Lyman has engineered full-sized .50 calibers tools and put them together in a handy double ended storage handle - always ready and all in one place. The unique knurled handle unthreads in the middle to store all the parts. Both ends of the handle are threaded to allow a tool head to be mounted on each end.

In addition to the double ended, storage handle the set includes:

- .50 Cal. Outside Deburring Tool
- .50 Cal. VLD Inside Deburring Tool
- .50 BMG Primer Pocket Reamer, Cleaner, and Uniformer

Case Prep Multi-Tool (#7777811)\$63.95

Pistol E-ZEE™ Case Gauge

Here's Lyman's popular E-ZEE Case Gauge in a smaller, more convenient size yet covering virtually any pistol case. The precise metal "no-go" gauge makes judging case length fast, easy and accurate.

E-ZEE Case Gauge (#7832217)\$16.95

E-ZEE™ Case Gauge

This full-size version measures the case length of over 70 popular rifle and pistol cases. Many new cartridges are included like the Winchester Short Mags, 204 Ruger, 500 S&W and others. Precisely made, this rugged metal gauge makes sorting cases quick, easy and accurate.

E-ZEE Case Gauge (#7832215)\$22.95

Power Deburring Accessory Set

Turn your Power Drill into a Power Case Prep Tool!

For all the shooters who own power screwdrivers. This kit includes large and small primer pocket reamers and cleaners, inside & outside deburring tools, cleaning brushes and adapters.

Accessory Set (#7999050)\$42.95

Ream/Clean Accessory Set

A set of threaded accessories for Lyman trimmers or utility crank. Includes L & S primer pocket reamers and cleaners plus adapters.

Accessory Set (3 oz.) (#7777795)\$17.95

This Deburring Accessory Set is included with the Cordless Power Case Prep Tool

Lyman Deluxe Anodized Aluminum Loading Blocks

Lyman's Deluxe Anodized Aluminum Loading Blocks are made for precision reloaders who want their equipment to be as high quality as the ammunition that they produce. The blocks are CNC milled from a solid billet of 6061-T6 aluminum to tight tolerances for a close fit to specific cartridges, unlike the common one-size-fits-all plastic blocks. The blocks are made in three sizes to fit most common rifle head sizes, and will hold 50 rounds. Blocks come with stick-on rubber non-slip feet to keep them from sliding on your bench.

.388" hole size – fits: 17 Rem., 17 Rem. Fireball, 204 Ruger, 222 Rem., 222 Rem. Mag., 223 Rem., 300 AAC

.485" hole size – fits: 225 Win., 22-250, 220 Swift, 243 Win., 6mm Rem., 240 Wea. Mag, 250 Sav., 257 Roberts, 25-06, 260 Rem., 6.5x55, 270 Win., 7mm-08, 7mm Mauser, 280 Rem., 300 Sav., 308 Win., 30-06, 7.65 Arg. Mauser, 8mm Mauser, 338 Fed., 358 Win, 35 Whelen

.565" hole size – fits: 223 WSSM, 243 WSSM, 25 WSSM, 257 Wea. Mag, 264 Win Mag, 270 WSM, 270 Wea. Mag, 7mm Rem. Mag, 7mm Wea. Mag, 7mm WSM, 7mm Rem. SAUM, 7mm STW, 7mm Rem. Ultra Mag, 300 H&H Mag, 300 Rem. SAUM, 300 WSM, 300 Win. Mag, 300 Rem. Ultra Mag, 300 Wea. Mag, 8mm Rem. Mag, 325 WSM, 338 Win. Mag, 340 Wea. Mag, 338 Rem. Ultra Mag, 375 H&H Mag, 375 Ruger, 375 Rem. Ultra Mag, 416 Rem. Mag, 450 Marlin, 458 Win. Mag

.388 Aluminum Loading Block (#7728080)	\$39.95
.485 Aluminum Loading Block (#7728081)	\$39.95
.565 Aluminum Loading Block (#7728082)	\$39.95

A. Quick Slick™ Pump Case Lube

Lyman's popular "Quick Slick" spray case lube is now available in a large and economical 16oz pump spray. The large ergonomic spray bottle allows you spray an entire loading block of cases in seconds. Dries quickly to a light, clear film, and eliminates messy lube pads.

Quick Slick Pump Spray Lube (#7631298) 16oz. \$21.50

B. Lyman Loading Block

Essential accessory for organization and speed, twin loading block holds 50 rifle or pistol cases .22 through .45 caliber. Molded of heavy duty plastic.

Loading Block (7 oz.) (#7728054) \$7.25

C. Case Neck Dipper

Prolongs case life and makes resizing easier by cleaning and lubricating the interior of bottleneck cases. After cleaning with brushes, dip the case mouths into dry lube to reduce friction from sizing die expander button. Includes 3 brushes and dry lube for cleaning all cases from .17 to .45 caliber.

Case Neck Dipper complete (2 oz.) (#7631360) \$11.95

Replacement. Lube Refill (5.7g) (#7991415) \$5.40

D. Quick Slick™ Case Lube

This petroleum based lube in a can allows you to spray an entire loading block of cases in seconds. Super slick lube helps prevent case dents.

Spray Lube (#7631296) 5.5oz. \$9.50

E. Extra-Large Caliber Deburring Tool

(extra large calibers up to .60)

This tool was designed for inside and outside deburring of cartridge cases from .17 caliber to 60 caliber. Ideal for black powder cartridge shooters. A must for 50 BMG reloading. The 30 degree angle cutter bevels inside the mouth of the case, allowing the bullets to slide in without deforming.

Extra-Large (#7810206) \$30.95

F. Deburring Tool

Bevels and removes burrs from both inside and outside of case mouth. Precision machined and hardened, fits all cases from .17 to .45 caliber.

Deburring Tool (2 oz.) (#7810199) \$21.50

G. Primer Tray

Flips primers anvil-side-up for easier loading. Spread on specially grooved surface, replace lid and shake. Made of durable plastic for safety.

Primer Tray (2 oz.) (#7728053) \$5.25

H. Ultra-Fine Dry Case Neck Lube

Many uses for this specialty lube. Dip case neck into lube before sizing to reduce friction from sizing die expander button. Also works great on keys that stick in locks.

Ultra-fine Lube (5.7g) (#7991415) \$5.40

CASE PREP TOOLS & ACCESSORIES

Lyman Magnum Inertia Bullet Puller

Safely strips loaded rounds in seconds without damage to bullet or case. Features newly engineered head design that allows use on full range of calibers from tiny 5.7 X 28FN to the largest Magnums. New "full size" ergonomic molded handle with rubber insert for comfort and sure grip.

Bullet Puller (#7810216)\$23.95

Trimmer Plus Case Conditioning Kit

The Trimmer Plus is the perfect addition to Lyman's Master Reloading Kit or any other starter reloading set-up. Lyman's Universal Trimmer Multi-Pack is the fastest and easiest tool for trimming cases, but the "Plus" delivers the extra items that make each trimmed case perfect. Start with a Universal decapping die to get any brass ready for trimming. The Universal Trimmer and multi-pilot pack trim all of the most popular calibers as simply as just changing between the provided pilots.

Kit Includes: Universal Trimmer with Expanded Pilot Multi-pack, Case Cleaner, Primer Pocket Cleaner (Large & Small), Primer Pocket Reamer (Large & Small), Loading Block, Case Lube Spray, Deburring Tool, Decapping Die

Case Conditioning Kit (7862112)\$179.95

Case Preparation Kit

Perfect accessory to your tumbler or case trimmer. It contains everything you need to properly complete case preparation: large and small primer pocket reamer for military brass, large and small primer pocket cleaner, 2 cushioned plastic handles, 3 case neck brushes and a case deburring tool. All in a handy storage pouch and box. Save 25% versus individual purchases.

Case Preparation Kit (11 oz.) (#7777796)\$42.95

Lyman Case Care Kit

The utility crank accepts most Lyman accessories and any tool with an 8-32 thread. Kit includes both Large & Small Primer Pocket Reamers, Cleaners, & Uniformers, as well as Inside and Outside Deburring Tools.

Case Care Kit (1 lb.) (#7777793)\$49.95

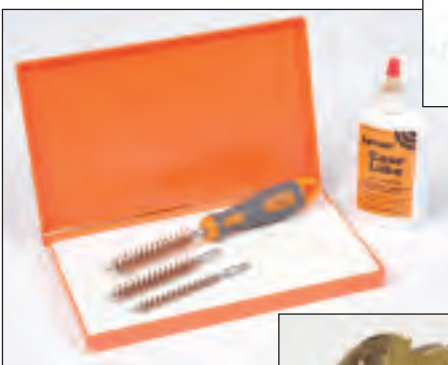

Case Lube Kit

Everything needed to clean and lube cases, inside and out, in one package. Large cloth lubricating pad in plastic case dispenses lube evenly. Includes 2 oz. of Lyman Case Lube, 3 interchangeable neck brushes and a cushioned plastic handle.

Case Lube Kit Complete (1 lb.) (#7631300)\$22.50

Case Lube (2 oz.) (#7631301)\$6.25

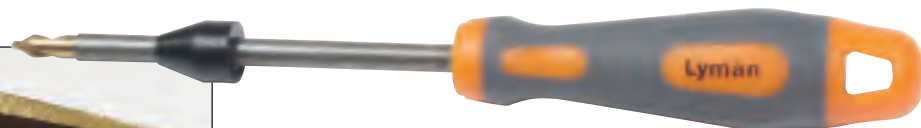

Lube Pad Only (9 oz.) (#7631302)\$9.50

Flash Hole Uniformer

This handy tool removes internal flash hole burrs. Features a tool steel cutter which is inserted into the flash hole through the case neck. Adjustable stop collar allows use with any size case. Burrs are removed with a clockwise turn. Fits .22 to .45 Calibers.

Flash Hole Uniformer (4 oz.) (#7777760)\$17.25

A Lyman
Innovation

Ammo Checkers™

Check the quality and consistency of both re-loaded rounds and purchased ammo. A must for any auto shooter for easy and consistent feed. You can't afford misfeeds, so get the easiest "no-go" gauge available today!

Lyman's Ammo Checkers are gauges that allow a reloader to quickly confirm that their ammunition will fit in their chamber. Machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to SAAMI minimum chamber dimensions, Ammo Checkers are available in three designs covering most common handgun and rifle calibers. One gauge will work with a variety of calibers. (See photo.) Just drop your loaded rounds in the ammo checker, and if the round fits into the gauge, it will fit in the gun's chamber. Each caliber is clearly engraved on the gauge. Bright orange anodizing makes them easy to find on your reloading bench.

Handgun Ammo Checker (#7833000)\$29.95

300 WSM

Rifle Case Length Headspace Gauges

To achieve the highest degree of safety and accuracy, Lyman recommends that all bottleneck rifle cases be inspected after resizing to ensure that the proper headspace dimension is maintained. Simply insert the case into the gauge to insure that it does not exceed the maximum or fall below the minimum allowable headspace. In addition, the gauge will identify a case which exceeds the maximum allowable case length.

Caution: Cases found with excessive headspace should be destroyed immediately.

Turbo Sonic® Power Professional

Designed for high volume cleaning or for larger than normal items, the Turbo Sonic Power Pro's 34.75" heated stainless steel tank can easily handle most barreled actions, upper receivers, as well as several hand-guns at a time. The powerful industrial transducers aggressively deep clean and degrease items, both inside and out. In fact, the Power Pro is such an effective cleaner that Lyman recommends that cleaned parts immediately be ultrasonically treated with Lyman's Turbo Sonic Gun Lube. Changing from cleaning to lubrication is easy with the built in drain system. Lyman now offers both cleaning concentrate and parts lubricant in gallon containers.

For complete control of the process, the Power Pro has both a timer and an adjustable heat control. Temperatures up to 175 degrees can be selected.

Turbo® Sonic Power Pro (115V)
(#7631734)\$1595.00
Replacement or Extra Basket (#7631745) . \$150.00

Power Pro Accessory Lube Tank

Now, users of Lyman's industrial strength Power Pro ultrasonic cleaner can easily and completely lube parts without draining the cleaning solution from the unit. This rugged, stainless tank is designed to sit in the Power Pro's cleaning tank which remains filled with cleaner. The unit's powerful ultrasonic action is transmitted through the cleaning solution into the accessory tank filled with lube. No tank draining or cleaning needed.

- Allows firearms to be lubricated without draining cleaning solution
- Side brackets support the accessory tank allowing it to sit in the cleaning solution, transferring the ultrasonic action to the lube
- Tough, welded metal construction
- Large handles make moving the tank easy
- Huge time savings when cleaning multiple firearms

Power Pro Accessory Lube Tank (#7631739)\$309.95

Turbo Sonic® Barrel & Gun Parts Lube

Specifically formulated for ultrasonic use right out of the bottle, Turbo Sonic Gun Lube displaces moisture and penetrates all the hard to reach areas of any part making it ideal for use after ultrasonic cleaning. Formulated for superior firearms lubrication and protection, the lube leaves a dry protective, lubricating film and can be reused repeatedly.

Turbo® Sonic Gun Lube 1 Gallon (#7631735)\$72.50

Turbo Sonic® Cleaning Solutions & Accessories

Cleaning with ultrasonics requires the correct solution for the specific cleaning application. Lyman has partnered with a renowned chemical research team to develop a broad line of superior solutions for use with any of today's new ultrasonic cleaners. Our Turbo Sonic Case Cleaning Solution is formulated to deliver superior results - inside and out. Now there are Turbo Shots single use packets, too.

Our Gun Parts Solution - now also in single use Turbo Shots - is the perfect choice for steel and stainless steel parts such as barrels, cylinders or other parts and tools.

This year we continue to expand our line of ultrasonic solutions with our new gallon size Turbo Sonic Steel Cleaner. A 4oz. economy starter size as well as a large 32 oz size for the high volume user are available. Ultrasonic cleaners have been used to clean jewelry for years. For the Sportsman who also wants to use a Lyman Turbo Sonic to clean fine jewelry or other valuable items, Lyman has a special 16oz jewelry cleaning solution.

Turbo® Shots Steel Cleaning Packets (10pk) (#7631738)\$19.95

No Measuring!

Lyman is the name you've trusted for more than 30 years for the latest advances in brass cleaning technology. Our Turbo® Tumblers revolutionized the way cases were cleaned and polished. Now you can trust the experts to bring you the best equipment for the latest scientific advancement - Ultrasonic Cleaning.

Our Ultrasonic Cleaners incorporate all the features you need. Our smaller TS-1200 model is perfect to clean a few small parts quickly. It has the same power that our larger units boast, but takes up only a small space on your workbench and is ready to use at any time.

Our larger tanks allow you to clean more brass at one time or even several whole gun frames in one cleaning cycle. Our TS-6000 unit features a convenient drainage spout and hose to empty the used solution. The heater and powerful transducers, combined with our scientifically developed cleaning solutions ensure that your items get cleaned thoroughly in minimal time.

Ultrasonic cleaners may also be used for a variety of general purpose duties outside the reloading or firearms applications. These include jewelry, CD's, eyeglasses and more. It is extremely important when using the Turbo Sonic for uses other than cases or steel parts that you use the correct cleaning solution or you risk damage to the item you are cleaning. Lyman offers a special jewelry cleaning solution. For cleaning items other than brass cases or steel parts, we suggest contacting the manufacturer of the item to determine if ultrasonic cleaning is appropriate for that item.

The New TS-1200 makes quick and easy work of small parts or batches of cases. It is also handy for other items and can even be used for jewelry cleaning with our Turbo Sonic Jewelry Cleaning Solution!

Model	Tank Size	Capacity	Timer	Heater	Drain Valve	Fits 9mm # Cases	Fits 223 # Cases	Fits 30-06 # Cases

TURBO® TUMBLERS

*The Industry
Leader in
Brass Cleaning*

A. Turbo® 600

A balance of capacity, power & economy

For the reloader who processes smaller volumes of cases but wants maximum utility and versatility. This model can not only polish 175 .38 Special cases, but can also polish rocks and heavier items. The Turbo® 600 models have convenient, see-through tops.

Turbo 600 Tumbler (#7631306) 115V\$79.95

B. 2200 Auto-Flo® Tumbler

The Original Auto-Flo

The 2200 features a high strength "Ultra-Thick" Roto Molded bowl which will last as long as you own your tumbler. The 1.5 gallon capacity is ideal for the large volume user and can clean 750 .38 Special cases in one cycle. The 2200 also features a clear see-thru lid for inspecting cases during cleaning. A media drain pan is also included.

2200 Auto-Flo 115V (#7631601)\$174.95

2200 Auto-Flo 230V (#7631611)\$176.00

Turbo® Accessory™ Bowls

Allows for tumbler upgrade. 600 bowl for liquid use with 1200 tumbler. 1200 bowl doubles capacity of 600. Hardware included.

600 Accessory Bowl (1 1/4 lbs.) (#7631399)\$16.50

1200 Accessory Bowl (1 1/2 lbs.) (#7631323)\$22.95

C. & D. 2500 Pro Magnum Tumbler

Lyman's Pro Magnum Tumbler is designed for the high volume reloader, and high volume reloaders are always looking for value. The two gallon capacity bowl is engineered to deliver powerful cleaning action even at full capacity. Handling up to 1000 .38 Special cases at a time, the heavy-duty motor and advanced drive system deliver fast cleaning and long life. For maximum convenience, Auto-Flo models are also available.

2500 Pro Magnum 115V (#7631692)\$105.95

2500 Pro Magnum 230V (#7631695)\$127.50

2500 Pro Magnum Auto-Flo 115V (#7631697)\$155.95

2500 Pro Magnum Auto-Flo 230V (#7631699)\$157.50

The Auto-Flo™ Advantage

The ultimate in case cleaning convenience, Lyman's Auto-Flo Tumblers automatically separate clean cases from media using the unit's normal vibrating motion. When cases are clean, the user simply pulls the drain plug and the media drains from the exit port into the media drain pan (included).

I. & J. Auto-Flo Conversion Kits

Auto-Flo conversion systems can give your standard tumbler the "Auto-Flo Advantage". Works on Lyman Tumblers and most competitive models of similar bowl size. All systems include bowl, lid, Auto-Flo drain base and media dump pan.

600/1200 System (#7631636)\$38.95

2500 System (#7631649)\$52.95

E. 1200 Classic Tumbler

The Classic 1200 model features the original Roto Molded bowl design for many years of use. All 1200 Classic models feature a large 1 gallon capacity and will easily tumble 350 cases at a time. The standard 1200 also comes equipped with an in-line on/off power switch and includes free media.

1200 115V (#7631305)\$114.95
1200 230V (#7631311)\$127.50

F. 1200 Auto-Flo® Tumbler

The Turbo that started the revolution in case cleaning.

The 1200 Auto-Flo has the same capacity as the original 1200 but features the Auto-Flo self separating system. When cases are clean, the drain plug is removed and the media flows through the tumbler into the drain pan (included with all Auto-Flo tumblers).

1200 Auto-Flo 115V (#7631630)\$122.50
1200 Auto-Flo 230V (#7631632)\$130.00

G. PRO 1200 Turbo® Tumbler

Our best seller and a true value for reloaders.

The 1200 Pro features the same capacity as our standard 1200 model at a very affordable price. The “built-in” sifter lid for quick and easy media separation saves you the cost of a separate media sifter. This economic 1200 Pro will hold 2 lbs. of media and will clean up to 350 cases per cycle.

Turbo 1200 Pro Tumbler (#7631318) 115V\$73.95
Turbo 1200 Pro Tumbler (#7631319) 230V\$87.50

H. Turbo® Twin Tumbler

Real versatility and value

Lyman's Turbo® Twin has become one of the most popular tumbler choices. It features our Lyman 1200 Pro Tumbler with an extra 600 bowl system so reloaders can interchange bowls for small or large capacity loads. 600 Bowl is also ideal for rock polishing or small polishing or deburring operations. This model also features Lyman advanced drive system for faster, more consistent tumbling action.

Turbo® Liquid Case Cleaner, Brass Polish and Media Reactivator

Turbo® Case Cleaner is an excellent liquid pre-cleaner for extremely fouled cases. Also may be used as a wet media. Use manually or with a tumbler.

Case Cleaner (16 fl. oz.) (#7631340)	\$11.75
--------------------------------------	---------

Turbo® Brite Brass Polish is ideal for use as an additive when using untreated Corncob or Nutshell. Works with treated media to bring brass to a high luster.

Brass Polish (5 oz. bottle) (#7631358)	\$8.40
Brass Polish (20 oz. bottle) (#7631361)	\$22.95

Turbo® Charger Media Reactivator will restore previously used corncob media. Simply add as instructed directly to media.

Media Reactivator (4 oz. bottle) (#7631322)	\$7.75
Media Reactivator (16 oz. bottle) (#7631324)	\$18.95

Orange Turbo Concentrated Case Cleaning Solution

A powerful concentrated solution for cleaning or pre-cleaning large batches of cases. Simply mix with water and soak cases for 5 minutes or less. 16oz. bottle provides enough concentrate for 1 gallon of cleaning solution. Best of all, Orange Turbo actually smells like oranges!

Orange Turbo Concentrate 16 oz (#7631355)	\$17.95
---	---------

Untreated Corncob - Ideal for polish after Ultrasonic Cleaning

Flash Hole Cleaner

Designed to remove bits of media from flash holes and primer pockets.

Flash Hole Cleaner (#7777750)	\$8.25
-------------------------------	--------

Brass Baggies

Allows you to keep different batches of cases separate during the cleaning process. Use inside Tumbler while cleaning.

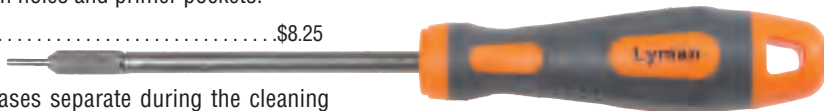

Brass Baggies (12 pack) (#7631391)	\$7.75
------------------------------------	--------

Turbo® Super Sifter

The new Turbo Super Sifter allows cases to be easily separated from media while positioned over 7, 5, 3 or 2 gallon pails. These commonly available pails make the perfect container for storing used media. The sifter is equipped with large handles to make it easy to use with large volumes of cases and media. The extra deep design prevents media from spilling over the edges when pouring case and media from a tumbler and when in use.

- Works with commonly available 7, 5, 3 and 2 gallon pails
- Extra deep design keeps media inside the sifter and off the floor
- Large handles make the sifter easy to use

Turbo Sifter (#7631316)	\$11.50
-------------------------	---------

Turbo® Case/Media Separator

Lyman puts a new “spin” on the media separator. Lyman engineers took a look at the media separators on the market and decided that they could do better. The result is a separator that incorporates many new features that makes the messy job of sifting media from cases much easier. The inner basket can be positioned to prevent it from moving as cases are poured in. The crank handle cover spins freely on the crank, making it much more comfortable to use. Improved latches provide a solid lock-up for the basket and the outer cover. The covers have interlocking edges to seal media and dust inside.

- Free spinning crank handle cover
- Improved latches for a tight lock-up of the basket and cover
- Can be used with either right or left hand
- Tight seal to trap media and dust inside

Media Separator (#7631326)\$39.95

A. Super Moly Bore Cream

This Superfine Moly bore cream is applied directly to the bore. Brushed into the pores of the rifling, it smooths and polishes the surface to a black, shiny friction-reducing finish. This reduces bore fouling and increases barrel life and accuracy.

Moly Bore Cream (#7631419) (3oz.)\$18.95

B. & C. Super Moly Spray

Super Moly Spray coats bullets quickly and easily without the use of a tumbler. Simply spray on bullets and allow to dry for a few minutes. This thin spray coating can be used for Moly coating the bore and rifling of your firearm for total lubrication. It is also superb as a bullet mould release agent and rust preventative.

Moly Spray B. (#7631417) (4oz.)\$19.95

Moly Spray C. (#7631415) (13oz.)\$32.50

D. Super Moly “Superfine” Grade Moly Powder

This Superfine Grade Molybdenum Disulfide coats the bullets quickly with a bright, shiny finish that will not rub off on your hands. Coating instructions included.

Moly Powder (#7631412) (6oz.)\$26.95

E. Super Moly Finishing Accessory Set

The kit contains two heavy duty long lasting bowls, (which will fit the Lyman 600 and 1200 tumblers and most other brand tumblers,) six ounces (6oz) of Superfine Grade Moly, Moly plating media, and fine finishing media. This kit will coat many thousands of bullets. Coating instructions are included.

Accessory Set (#7631384)\$68.95

Finishing Kit Replacement Medias

(#7631381) Replacement Ceramic Media\$19.95

(#7631392) Untreated Cob Finishing Media 6 lb Easy Pour\$19.25

(#7631389) Untreated Cob Finishing Media 2 lb\$11.75

F. Super Moly Tumble Coat Bullet Finishing Kit (Includes Tumbler)

This kit contains everything you need to moly coat thousands of bullets! This kit contains a Lyman 1200 tumbler, an extra heavy duty moly coating bowl, six ounces (6oz) of Superfine Grade Moly, Moly plating media and 2 lbs of fine finishing media. Complete step by step moly coating instructions included.

Finishing Kit 115V (#7631343)\$137.95

BULLET CASTING EQUIPMENT

**Largest Capacity,
Digital Accuracy
and Control**

Mag 25 is designed to work with Lyman, RCBS, Redding, and Lee Mould Blocks.

Mag 25 Digital Melting Furnace

Lyman has introduced their largest and most precise lead melting furnace yet: The Mag 25. The twenty five pound capacity is five pounds greater than Lyman's popular Mag 20. In addition, this new furnace is the first to offer an advanced digital thermal management system with key pad controls

Designed for high volume bullet caster, the Mag 25 offers an array of features not found on any other furnace. With 850 watts of power, the furnace is quick to heat up, even with the increased capacity. In addition, the digital display on the front panel shows both the actual lead temperature as well as the desired temperature setting. Precise furnace operation is enhanced by the simple keypad controls.

For casting versatility, the furnace is equipped with a universal mould guide which can adjust for most popular mould blocks from Lyman, RCBS, Redding/Saeco & Lee. Lyman's proven bottom pour valve system and mould block preheating plate assure maximum casting volume.

The Mag 25 sits on a large, stable base with two, front-loading storage compartments for handy access to needed tools. This advanced furnace is offered in both 115 Volt and 230 Volt models as well as an Australian model.

- Advanced digital thermostat control with simple to use key pad
- Separate digital displays for temperature setting and actual lead temperature
- Larger 25 pound capacity
- Universal mould guide accepts most Lyman, RCBS, Redding/Saeco and Lee moulds
- Built-in storage compartment
- Powerful 850 watt heating system for fast warm-up
- Warming shelf for pre-heating mould blocks
- Reliable bottom pour valve system for increased bullet production

Mag 25 Digital Furnace (#2800382) 115V \$339.95

WARNING: Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See Instructions on Reducing Exposure supplied with product.

Lyman's "Master Casting Kit"

The Best Way to Get Started in Bullet Casting.

The kit's low price includes Lyman's popular improved 4500 Bullet Sizer/Lubricator. Simply add the right top punch and sizing die and the 4500 will smoothly size down your bullet to the correct diameter while it evenly applies the provided Super Moly lubricant.

Kit Includes:

- Big Dipper
- 4500 Sizer/Lubricator
- Long handled casting dipper
- Ingot mould
- Super Moly Bullet Lube
- Lyman Cast Bullet Handbook

All this for less than the price of most casting furnaces.

**Best
Value!**

Master Casting Kit (#2712000) 115V \$279.95

Master Casting Kit (#2712015) 230V \$288.50

BULLET CASTING EQUIPMENT

Available
with or
without
built-in
heater

4500 Lube Sizer

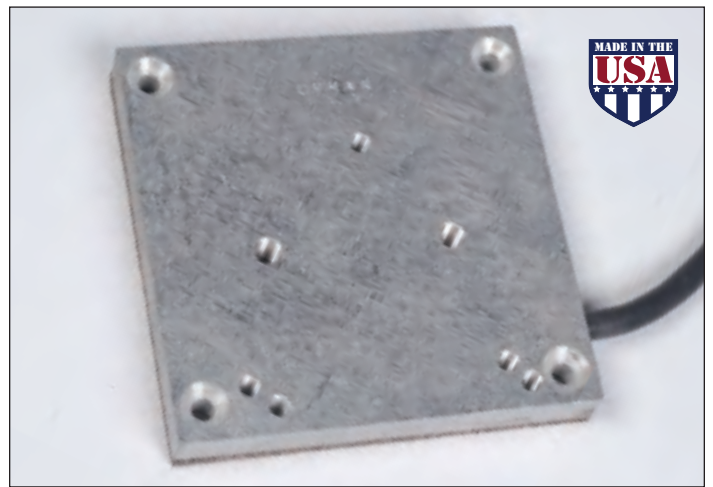

The 4500 Lube Sizer features solid one piece bottom casting, heating elements to fit both 115 volt and 230 volt, and a longer ball knob handle for more leverage for sizing and lubricating the largest bullets. Includes gas check seater and Super Moly Lube.

(#2745880) No Heater	\$238.95
(#2745892) With Heater 115V	\$247.50
(#2745894) With Heater 230V	\$254.00
(#2745896) Heating Element 115V	\$47.95
(#2745898) Heating Element 230V	\$60.00

Gas Check Seater

This ingenious, unique device allows consistent, square seating of gas checks. Works on all Lyman #450, 4500 Sizer/Lubricators and RCBS Lube-A-Matic.

Seater (4 oz.) (#2745881)	\$11.95
---------------------------------	---------

Universal Lube Heater Accessory

Designed for today's high temperature lubes, this heats the Lube/Sizer to the right temperature for smooth, effortless bullet lubrication. The mounting plate is drilled and tapped for Lyman 450, RCBS, Saeco and Star Lube/Sizers. Plugs into standard 110 volt outlet (comes complete with mounting hardware). Note: Do not confuse with 4500 heating element.

115V (#2745885)	\$70.50
230V (#2745888)	€ \$75.00

Orange Magic™ Premium Bullet Lube

This hard lubricant is guaranteed to provide higher velocities with cast pistol and rifle bullets without leading. It will not melt out of loaded ammunition at high temperatures. (Recommended for use with the Lyman Lube Heater.)

Orange Magic Lube: (#2857286)	\$5.30
-------------------------------------	--------

Super Moly™ Bullet Lube

The Molybdenum Disulfide in this lube coats the barrel for increased velocity and improved accuracy. In addition, it virtually eliminates leading and it flows through lube sizers without heat, yet won't melt at 130°.

Super Moly Lube: (#2857272)	\$5.30
-----------------------------------	--------

All Lyman stick lubricants are in a tube, fit the 4500 Sizer/ Lubricator and similar Sizing/Lubricating tools, including RCBS.

Black Powder Gold™ Lube

Formulated for long range black powder shooting. It keeps fouling soft and flows through lube sizers. It can be applied by hand to muzzleloading bullets.

Black Powder Gold Lube: (#2857266)	\$5.30
--	--------

Lyman Alox Lube

This is the original NRA formula developed for increased cast bullet velocities.

Alox Lube (1 1/4 oz stick) (#2857277)	\$5.30
---	--------

Lyman Ideal Lube

A great all-purpose lube.

Ideal Lube (1 1/4 oz stick) (#2857275)	\$5.30
--	--------

BULLET CASTING EQUIPMENT

"Big Dipper" Electric Casting Furnace

This economical electric casting furnace has more than 10 lb. Capacity. Features fast heat-up time with heat control to +/- 10 degrees. Easy "on-off" temperature dial. Compact size with wide mouth for easy ladling. Heavy duty aluminum construction with stable non-tip design. (115 Volt)

Big Dipper Electric Casting Furnace 115V (#2800350)\$52.00

Big Dipper Electric Casting Furnace 230V (#2800355)\$58.50

**Now Includes
Cast Bullet
Handbook**

"Big Dipper" Casting Starter Kit

Features all the items needed to get started in casting bullets economically and efficiently. Includes "Big Dipper" electric casting furnace with 10+ lbs capacity, Lyman Casting Dipper, Ingot Mold for storing excess lead, Super Moly Bullet Lube, Orange Magic Bullet Lube, Alox Bullet Lube, and the Lyman Reloading and Cast Bullet Guide.

Big Dipper Casting Kit 115V (#2800375)\$104.95

Big Dipper Casting Kit 230V (#2800378)\$110.00

10lb. Cast Iron Lead Pot

10lb. capacity, made of cast iron with convenient pour spout. Lyman's lead pot allows the bullet caster to use any source of heat for melting his lead alloy. Nominal pot capacity is ten pounds of alloy. Flat bottom prevents tipping.

10lb. Cast Iron Lead Pot (#2867795)\$21.95

A. Casting Ingot Mould

Useful when melting down scrap lead, emptying your furnace, or when blending alloys. Each mould forms four, easy-to-use ingots that stack easily and will weigh approximately 1 lb. Sides of mould have 30° draft for easy ejection of lead ingots.

Ingot Mould (1 lb.) (#2837794)\$27.25

B. Casting Dipper

Our dipper with cast iron head is shaped for easy, accurate pouring and prevents air pockets in the finished bullet. The long stem dipper can also be used for stirring molten lead alloys. Wooden handle stays cool in use. Can be set up for right- or left-hand use.

Casting Dipper (6 oz.) (#2867790)\$27.25

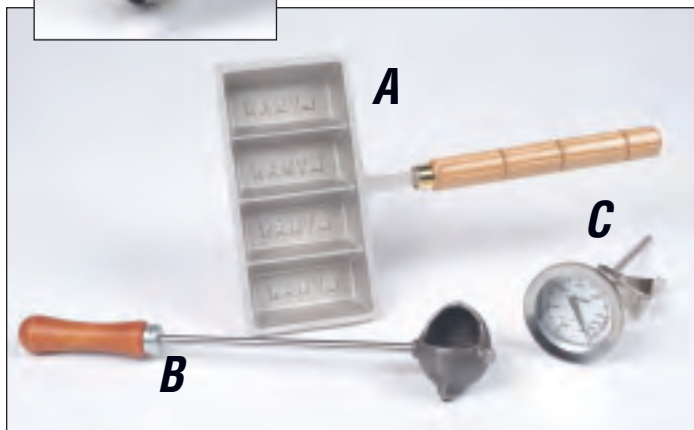

C. Casting Thermometer

This stainless steel thermometer will measure a temperature range from 200°F to 1000°F and has a six inch stem for use with even the deepest furnaces.

Casting Thermometer (4 oz.) (#2867793)\$52.95

*Dipper can be assembled for
either right- or left-hand use!*

Sizing Dies

Lyman improved sizing dies now have 90° hole spacing. It's now easy to lubricate bullets even with today's hard lubricants. Lyman sizing dies also feature a tapered mouth and hardened interior insuring alignment for perfect cylindrical shape. Interior dimensions correspond to suggested diameters for all popular rifle and pistol calibers. Refer to the chart below for proper size. Lyman Top Punches are precisely machined to fit bullet nose shape exactly. This eliminates nose deformation. Refer to Lyman's bullet mould listing for suggested top punch number. (These are interchangeable with RCBS)

H&I Sizing Die\$33.95
Top Punch\$12.50

Gas Checks

These gilding metal cups fit the cast bullet base and protect it from hot powder gases. Easily seated during bullet sizing, the gas checks also permit higher velocities.

Lyman Mould Rebuild Kit

With proper care, a Lyman mould will last for generations. Rebuild kits provide replacement of those moving parts which may tend to wear after long use. Includes sprue cutter, washer, all screws for block and handle.

Large single cavity kit (2 oz.) (#2680100)\$9.25
Double cavity kit (2 oz.) (#2680102)\$9.25
Four cavity kit (6 oz.) (#2680104)\$15.95

Mould Box

Spare mould box is made of tough plastic with a snap-lock cover. Impervious to moisture, bore cleaner or oil. Includes blank label. Fits single and double cavity moulds only.

(3 oz.) (#2735790)\$3.95
Ten Pack (1 3/4 lbs.) (#2735789)\$18.95

PISTOL BULLET MOULDS

Pistol Moulds

Our standard offering of pistol moulds covers popular bullet designs, in double cavity style. Four cavity blocks for selected designs are also shown in the table below. Refer to the Devastator Hollow Point section for availability.

Double and single cavity mould blocks less handles (12 oz.)\$90.95

Four-cavity mould block, less handles (2 lbs., 3 oz.)\$121.95

Rifle Moulds

Lyman rifle moulds are the standard by which all other rifle moulds are judged. The designs shown below picture gas checks where appropriate. All Lyman rifle moulds are available in double cavity only, except those moulds where the size of the bullet necessitates a single cavity (indicated below by a ★). All rifle moulds shown below require double cavity handles, regardless of the number of cavities indicated. Hollow point designs are noted above bullet.

Rifle Moulds (13oz.) mould, less handles\$90.95

WARNING: Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See Instructions on Reducing Exposure supplied with product.

Shotgun Slug Moulds

Available in 12 or 20 gauge, these moulds cast perfect hollowbase slugs which do not require rifling. Slug moulds are single cavity only and cut into the larger double cavity block. They require double cavity handles.

Shotgun Slug Moulds (14oz.)\$90.95

.45 Conical & Plains Bullets

These offer the traditional muzzleloader a tapered bullet design for easy loading. Large deep lube grooves hold enough lube to keep fouling soft and ensure accuracy without leading.

Plains Bullets (14 oz.)\$90.95

Minie and Maxi Mould

These designs are exactly reproduced from originals used over 100 years ago. The best bullets selected from American and British designs from 45 to 69 caliber.

Minie and Maxi Mould (14 oz.)\$90.95

Mould Handles

Solid metal frame is easily attached to blocks with slotted screws. Hardwood handles provide a cool secure grip. Designed to provide uniform grip with different mould blocks.

Lyman mould handles are offered in two sizes.

Double-cavity handles (12 oz.) (#2735793)\$46.95
(for all current two-cavity and single cavity moulds)

Four-cavity handles (1 lb.) (#2735794)\$46.95

Lyman Load Data Series

Lyman's load data is now available by caliber or category in handy books. The Load Data Books are ideal for the reloader who only wants to reload for select calibers. Like all Lyman Handbooks, these cover all popular brands of powder, primers and bullets, even cast bullets. They are the perfect way to survey which components and loads to select before reloading a new cartridge. Lyman Load Data Booklets include:

- Bullets from all major brands
- Powders from Accurate, Alliant, Hodgdon, IMR, Ramshot, Vihta Vuori and Winchester
- Data covering all current Lyman moulds as well as popular Lee, RCBS and Saeco moulds
- Suggested "Accuracy Loads" for each bullet listed
- How-To-Reload instructions

AR Reloading Handbook

The first reloading handbook dedicated exclusively to the most popular modern semi auto rifle and it's many variants. This comprehensive handbook provides the AR shooter with reloading data for nearly all AR based calibers. In addition the standard .223, also covered are: 6.8 Rem, 300 AAC, 7.62x39, 450 Bushmaster, 50 Beowulf and more.

Interesting articles by well known and popular firearms journalists are also included. These cover such areas as "Reloading for Suppressors" and "Cartridge Interchangeability". Finally all this AR data is presented in a full size, easy-to-use 8 1/2" x 11" format. This is required reading for any AR shooter.

AR Reloading Handbook (#9816045)\$14.98

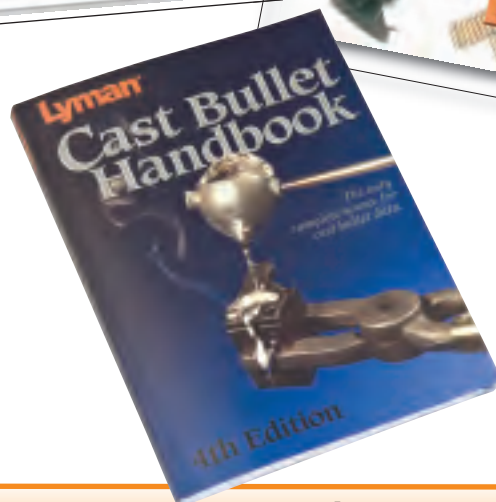

Cast Bullet Handbook, 4th Edition

The first new cast bullet data manual in 30 years contains data using the latest and most available components for bullet casters. In addition to data for Lyman's entire line of rifle and pistol moulds, the Cast Bullet Handbook includes data for selected moulds from other manufacturers. Like Lyman's other popular handbooks, this large edition covers valuable "how-to" editorial as well as important articles by acknowledged authorities in the field.

Cast Bullet Handbook (#9817004)\$27.50

The Reloading Authority for Over a Century

Ever since the original 1880's Ideal Reloading Handbook, reloaders have relied on Lyman for tested and proven data for their favorite cartridges. Today, there are more data-packed Lyman handbooks than ever. Just look on the bench of any serious reloader and you'll find at least one, if not a collection of Lyman's authoritative handbooks. Each is filled with the kind of information reloaders and shooters demand: load data, ballistics, as well as interesting articles by acknowledged experts.

Reloading Handbook 49th Edition

Soft Cover and Hard Cover Editions

The 49th Edition Lyman Handbook covers data for the newest cartridges as well as a separate and complete T/C Encore and Contender data section, covering virtually every brand of commonly available component. Popular features include the "Accuracy Load" for each cartridge and listings of the ballistic coefficients and sectional densities for all jacketed and cast bullets used. Readers will also find feature articles by today's top reloading authorities.

49th Ed. Reloading Handbook (#9816049)\$26.98
49th Ed. Hardcover (#9816052)\$37.98

The Lyman Shotshell Reloading Handbook 5th Edition:

This is the most complete and up-to-date shotshell reloading manual available. It covers cases, wads, and primers currently offered by all leading manufacturers in all gauges from .410 to 10 gauge. Non-Toxic Data Section covers steel, bismuth and Hevi-Shot, plus complete how-to load instruction. Slug and Buckshot Loads are covered too, plus a how-to-load section.

Shotshell Reloading Handbook (#9827111)\$24.98

Lyman Black Powder Handbook, 2nd Ed.

Edited by Sam Fadala, this is the most comprehensive black powder manual available. It includes thousands of pressure tested loads, along with a large assortment of round balls, conicals and sabots. Down range velocities and energies are also given for each load. Topics also covered include: choosing your muzzleloader, building the best loads, propellants, ignition, maintenance and black powder cartridges. There are also hundreds of pressure tested black powder cartridge loads for larger calibers.

Black Powder Handbook (#9827100)\$21.50

Lyman Pistol & Revolver Handbook, 3rd Ed.

The most complete handgun reloading data, encompassing all major brands of bullets, powders and primers. More than just data charts, this handbook also contains a number of captivating feature articles by well-known writers covering such popular subjects as: Cowboy Action shooting, loading for big bore revolvers and handgun varmint hunting.

Pistol & Revolver Handbook, 3rd Ed. (#9816500)\$23.50

Lyman Reloading Data Log

The Lyman Reloading Data Log is a must for shooters who reload. The large, easy-to-use format has plenty of room to enter all important data such as bullet, powder, primer, case, firearm used, plus size, velocity, conditions and several lines for comments on your reloads. Large 8 1/2" x 11" size. 50 pages per log.

Reloading Data Log (10 oz.) (#9847261)\$6.75

Reloading and Cast Bullet Users Guide

This booklet is filled with complete information on getting started in Reloading and Bullet Casting. It also includes detailed product instructions and parts drawings for Lyman presses, trimmers, scales, powder measure and tumblers.

Users Guide (4oz) (#9837283)\$1.95

A. Deluxe Hammer & Punch Set

The perfect companion for the home gunsmith or handyman. Each set features our complete selection of quality Gunsmith Punches plus the popular Brass Tapper Hammer. This unique set comes in a custom hardwood storage case which separates each punch by size for quick access.

Deluxe Set (3 lbs.) (#7031298)\$53.95

B. Gunsmith's Punch Set

A good selection of properly made and correctly sized punches is no longer hard to find. Now they're available from Lyman. The Gunsmith's Punch Set offers a complete selection of quality steel punches with hardened steel punch tips including 1/16", 3/32", 1/8", 5/32", 3/16", 1/8" center punch and a brass drift punch. Deluxe Set including the interchangeable head "Brass Tapper" hammer is also available. (see above)

Gunsmith Punch Set (12 oz.) (#7031273)\$28.95

C. Lyman "Brass Tapper" Hammer

For gunsmithing and other delicate jobs, this hammer has three interchangeable heads including nylon, brass and steel. For delicate tapping, a knurled brass drift pin stores inside the handle.

Brass Tapper (11 oz.) (#7031290)\$21.50

D. Lyman Magdriver "The Portable Gunsmith"

New Bits Included!

A specially designed screwdriver to handle most gunsmithing applications. Unique storage handle contains all eight specially selected, hollow ground bits. Magnetic tip provides quick, easy bit changes and aids in the handling of small screws.

MagDriver (6 oz.) (#7031268)\$13.95

E. Roll Pin Punch Set

Ideal tools for removing hollow, split roll pins. Special round nose design allows proper alignment of punch in roll pin to prevent damage to fine mechanisms such as trigger group parts. Roll Pin Punches come in 1/16, 3/32, 1/8, 5/32 sizes.

Punch Set(10 oz.) (#7031277)\$18.95

F. Pistol Punch Set

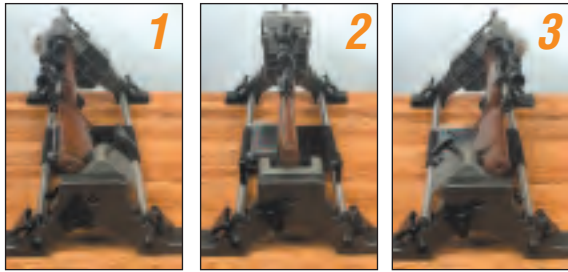

For the specialized needs of pistol work, Lyman has put together a more economical assortment of punches. This basic set utilizes the same universal handle as the Gunsmith's Set with the following punches: 1/16", 3/32", 1/8", 5/32" and brass drift punch.

Pistol Punch Set (8 oz.) (#7031271)\$18.95

Electronic Digital Trigger Pull Gauge

Lyman's Digital Trigger Pull Gauge is the fastest and most accurate trigger pull gauge available. Advanced strain gauge technology delivers accuracy to 1/10 ounce from 0 to 12 pounds. The large, easy to read LCD display is push button operated for zero, clear and averaging functions. It can also read in kilograms. No weights or sliding pointers to worry about, simply place the gauge on the trigger and pull! Lyman's Digital Trigger Pull Gauge accurately records multiple readings and can tell you the average weight for the string. This is the perfect tool for anyone who wants to adjust their trigger pull weights accurately and easily.

Electronic Digital Trigger Pull Gauge (#7832248) \$72.95

The Lyman No. 2 Tang Sight

Since shortly after the Lyman Gun Sight Company was founded in 1878, cowboys have flipped up a Lyman Tang Sight on their lever actions to make those long shots. When mounted, the No. 2 Tang Sight's greater sight radius means as much as 32% greater inherent accuracy at 100 yards. The "peep" is also a great help to sharpen the front sight. It provides a clear view of the target and front sight and can be used when the light is too dim for other sights.

The Model '66 & '73 Uberti No. 2 Tang Sights

With the popularity of the imported lever action rifles for cowboy-style shooting, it's only natural that requests for Lyman Tang Sights for these guns would increase. Now, there is a model for each of these repro rifles. Like the originals, these No. 2 Sights are all steel construction and feature height index marks on the aperture post, with a maximum elevation of .800 for long range shooting. It includes both a .093 quick sighting hunting aperture and a .040 Large Disk Target Aperture. Mounting screws and instructions are included. (Note: some rifles may require the drilling and tapping of the forward mounting screw.)

No. 2 Tang Sight (Model '73) (#3902109)\$97.95

No. 2 Tang Sight (Model '66) (#3902107)\$97.95

1894 No. 2 Tang Sight

When Lyman recreated the No. 2 Tang sight in 1994 for the Winchester 94 Centennial, the popularity of this classic sight soared. This model fits most new and old 94 models plus these other historic Winchester Models: 1892 and 1894. The No. 2 will also fit other models when adjusted to full height. (Note: Will not work on Win. Models with Tang Safety.)

(Win. 94 Pre 2003) (#3902094)\$97.95

1886 No. 2 Tang Sight

This legendary tang sight is also available for the Winchester 1886 lever action rifle. For original Winchester model 1886 and Browning replicas, it features height index marks on the aperture post and an .800 maximum elevation adjustment. Also included is a .093 x 1/2" quick-sighting aperture and .040 x 5/8" target disk. Mounting screws and instructions are included.

(Note: does not fit new rifles with Tang safety).

(#3902105)\$97.95

No. 2 Marlin Tang Sight

In 1995, Lyman introduced a new version of the No. 2 Tang for Marlin Models 336, 1894, 1895 and 30 series lever action rifles. The Marlin version features a special adapter base which allows mounting on the sight on the tang without damaging the serial number. All steel, this model has the same features and aperture discs as the 1886 model above. Mounting screws and instructions are included.

MUZZLELOADING SIGHTS & ACCESSORIES

Upgrade Your Muzzleloader with Lyman Black Powder Sights

Fiber Optic Hunting Sights

Fits Most European Imported Muzzleloaders

Now, black powder hunters can update their rifle sights with state-of-the-art fiber optic technology. These Lyman sights let hunters take advantage of every minute in the field. They are especially helpful in dawn and dusk periods when game is most active. Designed to fit the Lyman Great Plains, Trade and Deerstalker Rifles; these bright, light-gathering sights will also fit most other European-made black powder rifles.

Fiber Optic Sights (#3090145)\$42.50

Lyman 57SML and 57GPR Receiver Sights

The most popular black powder receiver sight offers an immediate improvement in accuracy for the target shooter or hunter. Features 1/4 minute micrometer click adjustments for elevation and windage, quick release slide. 57SML fits perfectly on Lyman Deerstalker or Trade Rifle. Other models may require minor drilling and tapping depending on manufacturer. 57GPR fits Great Plains supplied with adapter.

57SML (4 oz.) (#3090114)\$107.95

57GPR (4 oz.) (#3090112)\$107.95

Lyman #17A Muzzleloader Front Target Sight

The ideal companion for the 57SML receiver sight, the 17 comes complete with a set of 8 interchangeable inserts (see Page 55). The 17AML fits low to the barrel with a height of .494". The 17ATC fits rifles that use a tall vernier type rear sight. The 17ATC has a height of .852". All 17's are machined from steel and have a standard 3/8 dovetail. (Except 17AEU which has European Dovetail for Lyman Muzzleloaders).

LYMAN CLASSIC SERIES - "IDEAL MODEL" SHARPS

Lyman & Pedersoli combine forces on a truly unique rifle.

MODEL of 1878

Lyman "Model of 1878" Sharps Rifle The Ultimate Refinement of the Side-Hammer Sharps

As the buffalo era was ending, Sharps refined their renowned rifle to create the rare 1877 Model. It was often referred to as the "English Model" not just due to its refined styling but for its high quality English-made barrels. This would be their last side-hammer model. More streamlined, the '77 was more hunting/target rifle and less heavy buffalo gun. It was the most advanced single shot of the day. A year later William Lyman introduced his now famous Tang Sight.

Now, reproduced for today's single shot enthusiast, Sharps' final iconic side-hammer design and Lyman's sights combine to create Lyman's "Model of 1878". Painstakingly crafted to Lyman's specifications, by Pedersoli, this rare model has only been reproduced as an expensive, custom-made gun, until now. Lyman has changed that with a rifle that's packed with features that assure tack-driving performance.

First and foremost, Pedersoli's renowned craftsmanship and premium quality 45/70 barrel work in conjunction with the double set triggers and Lyman's tang and globe sights for a complete accuracy system. The butt stock has the faster mounting and more comfortable "shotgun-style" butt and the forend is finished with a premium ebony tip. Both carry tasteful, functional checkering patterns. Period style, laser engraving adds additional elegance to the receiver and lockplate. Overall, Lyman's Model of 1878 is a unique and desirable addition to any single shot enthusiast's collection.

Lyman "Ideal Model" Sharps Rifle

Lyman's Ideal Model is a continuation of where the historic Sharps Rifle Series left off. Co-developed in partnership with Chiappa Firearms, this elegant rifle is scaled down in size and weight, making it a superior hunting rifle in the renowned .38-.55 and .22 Hornet chamberings. The streamlined lock profile and vintage-style laser engraving are exclusive to this Lyman's Ideal Model and unavailable elsewhere. Further, Lyman's proven tang sight and globe front sight combine with the rifle's double set triggers to deliver the full measure of accuracy this premium rifle offers.

Ideal Model Exclusive Premium Features:

- Lyman Specification Bore Dimensions
- Custom Lyman Tang Sight With Target And Hunting Apertures
- Precision Lyman Globe Front Sight With Inserts
- Distinctive Receiver Profile featuring original Lyman Stylized Engraving
- Bright Finish Receiver
- Vintage Style Laser Engraving

Great Plains Rifle (shown at top)

Originally designed and built by such famous makers as Hawken, Gemmer and Demick, Great Plains rifles were the best and most reliable designs and finest workmanship available. No other factory assembled rifle or kit offers the authentic style and design of Lyman's Great Plains Rifle. This classic muzzleloader offers such high quality features as a 32" barrel with 1 in 60" twist for patched ball and hunting loads, double set triggers, Hawken style percussion "snail" with clean out screw, separate ramrod entry thimble and nose cap, and reliable coil spring lock with correct lock plate. Available in .50 and .54 caliber flint or percussion. Factory assembled or kit form.

Great Plains Hunter

The Great Plains Hunter model features a fast, 1 in 32" shallow groove rifled barrel. It's ideal for shooting the many types of modern projectiles available to today's black powder hunter, such as heavier conical bullets and sabots. The Hunter has all of the high quality features of our Classic Great Plains rifle. It is also pre-drilled and tapped for the 57 GPR receiver sight for the Great Plains rifle.

Lyman Trade Rifle (shown center)

The Lyman Trade Rifle is patterned after the sturdy and functional guns developed for the early Indian fur trade. Designed by such companies as Henry and Leman, these original guns were much sought after by trappers, Indians and other rugged wilderness survivors. Drop in barrels are also available.

Lyman Plains Pistol (shown at bottom)

Lyman Plains Pistol recreates the trapper's pistol of the mid-1800's while incorporating the best of modern steels and technology. It's the perfect companion to a Lyman black powder rifle. This percussion pistol is loaded with quality features. The richly stained walnut stock complements blackened iron furniture, polished brass trigger guard and ramrod tips. The hooked patent breech takes down quickly and easily for cleaning. Just like the originals, the thimble is recessed into the rib and a detachable belt hook provides an alternative to a holster. A spring-loaded trigger and fast 1 in 30" twist make it amazingly accurate.

Model	Twist	Part No.

HUNTING MUZZLELOADERS

A. Deerstalker Rifle (shown at top)

Lyman's Deerstalker Rifle has quickly earned the reputation as one of America's most reliable, accurate and affordable hunting muzzleloaders. All Deerstalkers have "Guaranteed" performance features such as a quiet single trigger, reliable coil mainspring and high quality Lyman fiber optic sights. The 24" barrel with 1 in 48" twist is ideal for roundball or maxi hunting bullets. Parts are blackened to avoid glare and a black rubber recoil pad mounted on the Deerstalker's handsome hardwood stock, makes for comfortable shooting in either .50 or .54 caliber. Drop in barrels available.

B. Mustang Breakaway™ 209 Magnum (shown at bottom)

Designed for the Serious Black Powder Hunter, the .50 Caliber, fast (1 in 28") twist 26" Barrel will handle virtually any .50 caliber bullets or sabot bullets. Made to handle 150 grains of Black Powder or 3 pellets, the Mustang delivers the reach and stopping power that today's muzzle-loading hunter demands. State of the art Fiber Optic Sights, front and rear, let hunters take advantage of every minute in the field. This is especially important in the productive dawn and dusk periods. The rifle also comes drilled and tapped with Weaver style bases and the hammerless design allows low, centered scope mounting. The proven hammerless design works as well for lefties as it does for righties, and it's always ready. Just push the tang mounted "Shotgun-Style" Safety off when you're ready to bag that trophy buck. The classic clean lines of the Breakaway Magnum are enhanced by the premium grade "Ultra Grain" Wood Finish. Naturally, this rifle features Pachmayr's top of the line "Decelerator" Recoil Pad to dramatically soften recoil.
